

Compost Science & Utilization

Volume 22, Number 4, 2014

CONTENTS

ARTICLES

- Nitrogen Release Patterns of Some Locally Made Composts and Their Effects on the Growth of Chinese Cabbage (*Brassica Rapa*, *Chinensis* Group) When Used as Soil Amendments 199
Amjad Ahmad, Nguyen Hue, and Theodore Radovich
- Comparison of the Composting Performance of Four Different Sewage Sludge Amendments 207
Saim Ozdemir, Omer H. Dede, and Gulgun Dede
- Suitability of Untreated and Composted Olive Mill By-Products as Amendments in Organic Olive Orchards 216
Francesco Montemurro, Donato Ferri, Angelo Fiore, and Mariangela Diacono
- Use of Composted Dairy Manure Solids Mulch for Raspberry: Influences on Soil Nematode Communities and N and P Availability 230
Tom Forge, Tom Walters, and Carol Koch
- Removal and Deactivation of Intestinal Parasites in Aerobic Mesophilic Composting Reactor for Urine Diverting Composting Toilet 242
S. K. Sossou, M. Sow/Dakoure, N. Hijikata, A. Quenum, A. H. Maiga, and N. Funamizu
- Pelletized Biochar as a Carrier for AM Fungi in the On-Farm System of Inoculum Production in Compost and Vermiculite Mixtures 253
David D. Douds Jr., Joe Lee, Joe Uknalis, Akwasi A. Boateng, and Christine Ziegler-Ulsh
