

# CONTENTS

Volume 66, December 2014

## Review

- 344** Physical effects upon whey protein aggregation for nano-coating production  
O.L. Ramos, R.N. Pereira, R. Rodrigues, J.A. Teixeira, A.A. Vicente, F. Xavier Malcata (Portugal)

## Research Articles

- 1** Influence of nano-size reduction on absorption and bioavailability of calcium from fortified milk powder in rats  
A. Erfanian, H. Mirhosseini, M.Y.A. Manap, B. Rasti, M.H. Bejo (Malaysia)
- 12** Sensory profiling of honeybush tea (*Cyclopia* species) and the development of a honeybush sensory wheel  
K.A. Theron, M. Muller, M. van der Rijst, J.C. Cronje, M. le Roux, E. Joubert (South Africa)
- 23** Phage adsorption on Enteropathogenic and Shiga Toxin-Producing *Escherichia coli* strains: Influence of physicochemical and physiological factors  
D. Tomat, A. Quiberoni, C. Casabonne, C. Balagué (Argentina)
- 29** Textural, microstructural and sensory properties of reduced sodium frankfurter sausages containing mechanically deboned poultry meat and blends of chloride salts  
C.N. Horita, V.C. Messias, M.A. Morgano, F.M. Hayakawa, M.A.R. Pollonio (Brazil)
- 36** Chemical composition, antioxidant activity and sensory evaluation of five different species of brown edible seaweeds  
I. Peinado, J. Girón, G. Koutsidis, J.M. Ames (UK, Spain)
- 45** Evaluation of physicochemical, textural, mineral and protein characteristics of kidney bean grown at Himalayan region  
N. Parmar, A.S. Viridi, N. Singh, A. Kaur, R. Bajaj, J.C. Rana, L. Agrawal, C.S. Nautiyal (India)
- 58** Functional properties of Balangu seed gum over multiple freeze-thaw cycles  
D. Khodaei, S.M.A. Razavi, M.H. Haddad Khodaparast (Iran)
- 69** Quantification of selected fat soluble vitamins and carotenoids in infant formula and dietary supplements using fast liquid chromatography coupled with tandem mass spectrometry  
C. Nimalaratne, C. Sun, J. Wu, J.M. Curtis, A. Schieber (Canada, Germany)
- 78** High throughput production of double emulsions using packed bed premix emulsification  
S. Sahin, H. Sawalha, K. Schroën (The Netherlands, Palestine)
- 86** Isolation and identification of cytoprotective agents from nonpolar extracts of buckwheat flour  
R. Qiu, J. Wang, K.L. Parkin (China, United States)
- 93** Manufacture of lignin microparticles by anti-solvent precipitation: Effect of preparation temperature and presence of sodium dodecyl sulfate  
H. Stewart, M. Golding, L. Matia-Merino, R. Archer, C. Davies (New Zealand)
- 100** Profiling ellagic acid content: The importance of form and ascorbic acid levels  
D.J. Williams, D. Edwards, S. Pun, M. Chaliha, Y. Sultanbawa (Australia)
- 107** Structure-response relationship of carotenoid bioaccessibility and antioxidant activity as affected by the hydroxylation and cyclization of their terminal end groups  
K. Sólyom, C. Maier, J. Weiss, M.J. Cocero, R.B. Mato, R. Carle, R. Schweiggert (Spain, Germany, Saudi Arabia)
- 115** Evaluation of glycosidic bond cleavage and formation of oxo groups in oxidized barley mixed-linkage  $\beta$ -glucans using tritium labelling  
A. Iurlaro, G. Dalessandro, G. Piro, J.G. Miller, S.C. Fry, M.S. Lenucci (Italy, UK)

- 123** Raman spectroscopic study of effect of the cooking temperature and time on meat proteins  
D.T. Berhe, S.B. Engelsen, M.S. Hviid, R. Lametsch (Denmark)
- 132** Multi-scale characterization of pasta during cooking using microscopy and real-time magnetic resonance imaging  
D. Bernin, T. Steglich, M. Röding, A. Moldin, D. Topgaard, M. Langton (Sweden)
- 140** The properties of whey protein–carrageenan mixtures during the formation of electrostatic coupled biopolymer and emulsion gels  
R.S.H. Lam, M.T. Nickerson (Canada)
- 150** Antioxidant potential of white grape pomaces: Phenolic composition and antioxidant capacity measured by spectrophotometric and cyclic voltammetry methods  
M. José Jara-Palacios, D. Hernanz, M. Luisa Escudero-Gilete, F.J. Heredia (Spain)
- 158** Modelling of patulin photo-degradation by a UV multi-wavelength emitting lamp  
R. Ibarz, A. Garvín, V. Falguera, J. Pagán, S. Garza, A. Ibarz (Spain)
- 167** Binding of retinyl acetate to whey proteins or phosphocasein micelles: Impact of pressure-processing on protein structural changes and ligand embedding  
C. Blayo, D. Puentes-Rivas, L. Picart-Palmade, D. Chevalier-Lucia, R. Lange, E. Dumay (France)
- 180** An insight into the bread bubble structure: An X-ray microtomography approach  
B. Cafarelli, A. Spada, J. Laverse, V. Lampignano, M.A. Del Nobile (Italy)
- 186** Mechanistic elucidation of apoptosis and cell cycle arrest induced by 5-hydroxymethylfurfural, the important role of ROS-mediated signaling pathways  
L. Zhao, J. Su, L. Li, J. Chen, S. Hu, X. Zhang, T. Chen (China)
- 197** Protective role of indigenous *Leuconostoc carnosum* against *Listeria monocytogenes* on vacuum packed Frankfurter sausages at suboptimal temperatures  
M. Baka, E. Noriega, L. Mertens, E. Van Derlinden, J.F.M. Van Impe (Belgium)
- 207** HPLC-DAD–MS/MS characterization of phenolic compounds in white wine stored without added sulfite  
S. Pati, P. Crupi, I. Benucci, D. Antonacci, A. Di Luccia, M. Esti (Italy)
- 216** Influence of environmental stresses on the physicochemical stability of orange oil bilayer emulsions coated by lactoferrin–soybean soluble polysaccharides and lactoferrin–beet pectin  
J. Zhao, J. Xiang, T. Wei, F. Yuan, Y. Gao (China)
- 228** Alleviation effect of heat-treated and in vitro gastrointestinal digested soymilks on AAPH-induced oxidative stress in human erythrocytes: Digested soymilks alleviate oxidative stress  
Y. Ma, S. Liu, H. Huang (China)
- 235** Sensory changes during bottle storage of Spanish red wines under different initial oxygen doses  
M.-P. Sáenz-Navajas, J.-M. Avizcuri, V. Ferreira, P. Fernández-Zurbano (Spain)
- 247** Rheological properties and cloud point of aqueous carboxymethyl cellulose dispersions as modified by high or low methoxyl pectin  
K. Bekkour, D. Sun-Waterhouse, S.S. Wadhwa (France, New Zealand)
- 257** Mutual effect of fat and  $\beta$ -carotene on fat crystal network structure and carotenoid bleaching  
S. Calligaris, F. Valoppi, L. Barba, M. Anese, M.C. Nicoli (Italy)
- 264** High pressure carbon dioxide combined with high power ultrasound processing of dry cured ham spiked with *Listeria monocytogenes*  
S. Sara, C. Martina, F. Giovanna (Italy)
- 274** Building habit strength: A pilot intervention designed to improve food-safety behavior  
B. Mullan, V. Allom, K. Fayn, I. Johnston (Australia)
- 279** Distribution and location of ethanol soluble proteins (Osborne gliadin) as a function of mixing time in strong wheat flour dough using quantum dots as a labeling tool with confocal laser scanning microscopy  
F. Bozkurt, S. Ansari, P. Yau, G. Yazar, V. Ryan, J. Kokini (United States, Turkey)
- 289** Control of listeria in meat emulsions by combinations of antimicrobials of different solubilities  
N. Terjung, M. Loeffler, M. Gibis, J. Hinrichs, J. Weiss (Germany)
- 297** The effect of milk proteins on the bioaccessibility of green tea flavan-3-ols  
S. Moser, M. Chegeni, O.G. Jones, A. Liceaga, M.G. Ferruzzi (United States)

- 306** Assessment of the of acid shock effect on viability of *Bacillus cereus* and *Bacillus weihenstephanensis* using flow cytometry  
V. Antolinos, M.-D. Esteban, M. Ros-Chumillas, J.-P. Huertas, P.M. Periago, A. Palop, P.S. Fernández (Spain)
- 313** Estimating thermal degradation kinetics parameters from the endpoints of non-isothermal heat processes or storage  
M. Peleg, M.D. Normand, A.D. Kim (United States)
- 325** Effect of social interaction and meal accompaniments on acceptability of sourdough prepared croissants: An exploratory study  
R. Di Monaco, D. Giacalone, O. Pepe, P. Masi, S. Cavella (Italy, Denmark)
- 332** Contribution to the establishment of a protected designation of origin for Meknès virgin olive oil: A 4-years study of its typicality  
A. Bajoub, A. Carrasco-Pancorbo, E.A. Ajal, G. Beltrán Maza, A. Fernández-Gutiérrez, N. Ouazzani (Spain, Morocco)
- 356** Effects of wheat and rye bread structure on mastication process and bolus properties  
S. Pentikäinen, N. Sozer, J. Närviäinen, S. Ylätaalo, P. Teppola, J. Jurvelin, U. Holopainen-Mantila, R. Törrönen, A.-M. Aura, K. Poutanen (Finland)
- 365** Effects of ozone processing on chemical, structural and functional properties of whey protein isolate  
A. Segat, N.N. Misra, A. Fabbro, F. Buchini, G. Lippe, P.J. Cullen, N. Innocente (Italy, Ireland, Australia)
- 373** Stability–activity of verbascoside, a known antioxidant compound, at different pH conditions  
M. D'Imperio, A. Cardinali, I. D'Antuono, V. Linsalata, F. Minervini, B.W. Redan, M.G. Ferruzzi (Italy, USA)
- 379** A method based on <sup>1</sup>H NMR spectral data useful to evaluate the hydrolysis level in complex lipid mixtures  
B. Nieva-Echevarría, E. Goicoechea, M.J. Manzanos, M.D. Guillén (Spain)
- 388** Characterization of potent odorants in Thai chempedak fruit (*Artocarpus integer* Merr.), an exotic fruit of Southeast Asia  
M. Buttara, K.-O. Intarapichet, K.R. Cadwallader (Thailand, USA)
- 396** Simultaneous quantification of phenolic compounds in buriti fruit (*Mauritia flexuosa* L.f.) by ultra-high performance liquid chromatography coupled to tandem mass spectrometry  
G.A. Bataglion, F.M.A. da Silva, M.N. Eberlin, H.H.F. Koolen (Brazil)
- 401** Physical characteristics of submicron emulsions upon partial displacement of whey protein by a small molecular weight surfactant and pectin addition  
O. Kaltsa, P. Paximada, I. Mandala, E. Scholten (Greece, The Netherlands)
- 409** Effect of pectin methyl esterase (PME) and CaCl<sub>2</sub> infusion on the cell integrity of fresh-cut and frozen-thawed mangoes: An NMR relaxometry study  
E. Kirtil, M.H. Oztop, A. Sirijariyawat, P. Ngamchuachit, D.M. Barrett, M.J. McCarthy (Turkey, United States, Thailand)
- 417** Fat contributes to the buffering capacity of chicken skin and meat but enhances the vulnerability of attached *Salmonella* cells to acetic acid treatment  
S.M. Tan, S.M. Lee, G.A. Dykes (Malaysia, Australia)
- 424** Effect of microencapsulation of *Lactobacillus acidophilus* LA-5 on physicochemical, sensory and microbiological characteristics of stirred probiotic yoghurt  
M.C.E. Ribeiro, K.S. Chaves, C. Gebara, F.N.S. Infante, C.R.F. Grosso, M.L. Gigante (Brazil)
- 432** Enhancing lactose crystallization in aqueous solutions by soluble soybean polysaccharide  
X. Shi, Q. Zhong (United States)
- 438** Physicochemical characterization of plasma-treated sodium caseinate film  
S.K. Pankaj, C. Bueno-Ferrer, N.N. Misra, L. O'Neill, B.K. Tiwari, P. Bourke, P.J. Cullen (Ireland, Australia)
- 445** Validation of Optimized Descriptive Profile (ODP) technique: Accuracy, precision and robustness  
R.d.C.d.S. Silva, V.P.R. Minim, A.N.d. Silva, A.C.A. Gonçalves, J.d.D.S. Carneiro, A.I. Gomide, S.M. Della Lucia, L.A. Minim (Brazil)
- 454** Coencapsulation of xylitol and menthol by double emulsion followed by complex coacervation and microcapsule application in chewing gum  
M.G. Santos, D.A. Carpinteiro, M. Thomazini, G.A. Rocha-Selmi, A.G. da Cruz, C.E.C. Rodrigues, C.S. Favaro-Trindade (Brazil)

- 463** Salivary lipase and  $\alpha$ -amylase activities are higher in overweight than in normal weight subjects: Influences on dietary behavior  
I. Mennella, V. Fogliano, P. Vitaglione (Italy, The Netherlands)
- 469** Capacity of natural  $\beta$ -carotene loaded microemulsion to protect Caco-2 cells from oxidative damage caused by exposure to  $H_2O_2$   
S. Roohinejad, D. Middendorf, D.J. Burritt, U. Bindrich, D.W. Everett, I. Oey (New Zealand, Germany)
- 478** Wheat dough rheology at low water contents and the influence of xylanases  
N.A. Hardt, R.M. Boom, A.J. van der Goot (The Netherlands)
- 485** Immobilization of endo-inulinase on poly-D-lysine coated  $CaCO_3$  micro-particles  
M. Karimi, M. Habibi-Rezaei, M. Safari, A.A. Moosavi-Movahedi, M. Sayyah, R. Sadeghi, J. Kokini (USA, Iran)
- 493** Bioactive compounds of the lipid fractions of agro-industrial waste  
A.C. da Silva, N. Jorge (Brazil)
- 501** A new mathematical model to quantify and characterize the response to pro- and anti-oxidants of the copper-induced oxidation of LDL assay. A tool for examination of potential preventive compounds and clinical risk prediction  
M.A. Prieto, J.A. Vázquez, M.A. Murado (Spain)
- 514** Corrigendum to "Effect of catechins on the growth of oxygen-sensitive probiotic bacteria"  
H. Gaudreau, C.P. Champagne, G.E. Remondetto, L. Bazinet, M. Subirade (Canada)
- 515** Corrigendum to "Logos indicating environmental sustainability in wine production: An exploratory study on how do Burgundy wine consumers perceive them"  
E. Ginon, G. Ares, L.H. Esteves dos Santos Laboissière, J. Brouard, S. Issanchou, R. Deliza (France, Uruguay, Brazil)
- 516** Corrigendum to "Identifying motives underlying wine purchase decisions: Results from an exploratory free listing task with Burgundy wine consumers"  
E. Ginon, G. Ares, S. Issanchou, L.H. Esteves dos Santos Laboissière, R. Deliza (France, Uruguay, Brazil)
