

MINI-REVIEW

- H. WAN, T. HAYE, M. KENIS, S. NACAMBO, H. XU, F. ZHANG, H. LI**
 Biology and natural enemies of *Cydalima perspectalis* in Asia: Is there biological control potential in Europe? 715–722

ORIGINAL ARTICLES

- Š. GRUCMANOVÁ, J. HOLUŠA, J. NERMUT**
 Nematodes associated with the double-spined bark beetle *Ips duplicatus* (Coleoptera: Curculionidae) in central Europe 723–732
- F. MA, Y. X. YU, H. QIN, J. H. ZHANG, S. F. ZHU, N. Z. CHEN, Y. Q. LUO**
 Key sites residues involved in interacting with chemicals of pheromone-binding proteins from *Lymantria dispar* 733–742
- H. B. YANG, G. HU, G. ZHANG, X. CHEN, Z. R. ZHU, S. LIU, Z. L. LIANG, X. X. ZHANG, X. N. CHENG, B. P. ZHAI**
 Effect of light colours and weather conditions on captures of *Sogatella furcifera* (Horváth) and *Nilaparvata lugens* (Stål) 743–753
- M. EICKERMANN, B. ULBER, L. HOFFMANN, J. JUNK**
 Improving phenological forecasting models for rape stem weevil, *Ceutorhynchus napi* Gyll., based on long-term multisite datasets 754–762
- M. ZIAEE, S. MOHARRAMIPOUR, A. MOHSENFAR**
 Toxicity of *Carum copticum* essential oil-loaded nanogel against *Sitophilus granarius* and *Tribolium confusum* 763–771
- J. R. HAGLER, S. E. NARANJO, S. A. MACHTLEY, F. BLACKMER**
 Development of a standardized protein immunomarking protocol for insect mark–capture dispersal research 772–782
- A. KNIGHT, L. CICHON, J. LAGO, E. FUENTES-CONTRERAS, W. BARROS-PARADA, L. HULL, G. KRAWCZYK, B. ZOLLER, R. HANSEN, R. HILTON, E. BASOALTO**
 Monitoring oriental fruit moth and codling moth (Lepidoptera: Tortricidae) with combinations of pheromones and kairomones 783–794
- SHORT COMMUNICATION**
- A. M. LAMBERT, T. L. DUDLEY**
 Exotic wildland weeds serve as reservoirs for a newly introduced cole crop pest, *Bagrada hilaris* (Hemiptera: Pentatomidae) 795–799
