

## FEATURE

- 805 **Kang XIAO, Ying XU, Shuai LIANG, Ting LEI, Jianyu SUN, Xianghua WEN, Hongxun ZHANG, Chunsheng CHEN, Xia HUANG**  
Engineering application of membrane bioreactor for wastewater treatment in China: Current state and future prospect

## Environmental Chemistry

- 820 **Xiaomao WANG, Garcia Leal M I, Xiaolu ZHANG, Hongwei YANG, Yuefeng XIE**  
Haloacetic acids in swimming pool and spa water in the United States and China
- 825 **Yang ZHANG, Zifu LI, Ibrahim B MAHMOOD**  
Recovery of  $\text{NH}_4^+$  by corn cob produced biochars and its potential application as soil conditioner
- 835 **Leila KARIMNEZHAD, Mohammad HAGHIGHI, Esmaeil FATEHIFAR**  
Adsorption of benzene and toluene from waste gas using activated carbon activated by  $\text{ZnCl}_2$
- 845 **Jingyu WANG, Hongwei FANG, Guojian HE, Lei HUANG**  
A model of  $^{90}\text{Sr}$  distribution in the sea near Daya Bay Nuclear Power Plant in China
- 854 **Yuning YANG, Huan LI, Jinyi LI**  
Variation in humic and fulvic acids during thermal sludge treatment assessed by size fractionation, elementary analysis, and spectroscopic methods
- 863 **Junjun TAN, Guohua YANG, Jingqiao MAO, Huichao DAI**  
Laboratory study on high-temperature adsorption of  $\text{HCl}$  by dry-injection of  $\text{Ca}(\text{OH})_2$  in a dual-layer granular bed filter

- 871 **Jingde LUAN, Rundong LI, Zhihui ZHANG, Yanlong LI, Yun ZHAO**  
Speciation evolutions of target metals (Cd, Pb) influenced by chlorine and sulfur during sewage sludge incineration

### **Environmental Monitoring**

- 877 **Lin WANG, Yingming XU, Yuebing SUN, Xuefeng LIANG, Dasong LIN**  
Identification of pakchoi cultivars with low cadmium accumulation and soil factors that affect their cadmium uptake and translocation
- 888 **Xinwei LI, Hanchang SHI, Kuixiao LI, Liang ZHANG, Yiping GAN**  
Occurrence and fate of antibiotics in advanced wastewater treatment facilities and receiving rivers in Beijing, China
- 895 **Xue LI, Pengjing LI, Dong WANG, Yuqiu WANG**  
Assessment of temporal and spatial variations in water quality using multivariate statistical methods: a case study of the Xin'anjiang River, China
- 905 **Hongguang CHENG, Xiao PU, Yiting CHEN, Fanghua HAO, Liming DONG**  
Characterization of phosphorus species and modeling for its organic forms in eutrophic shallow lake sediments, North China

### **Environmental Policy and Management**

- 922 **Zhiyi LI, Pengfei DU, Haiwei HUANG, Yong Ge, Xu LI**  
Modeling agricultural non-point source pollution in a high-precipitation coastal area of China
- 929 **Xuesong GUO, Zehang LIU, Meixue CHEN, Junxin LIU, Min YANG**  
Decentralized wastewater treatment technologies and management in Chinese villages

### **Environmental Pollution Control**

- 937 **Di CUI, Ang LI, Tian QIU, Rui CAI, Changlong PANG, Jihua WANG, Jixian YANG, Fang MA, Nanqi REN**  
Improvement of nitrification efficiency by bioaugmentation in sequencing batch reactors at low temperature
- 945 **Lei ZHU, Xiaohong ZHOU, Hanchang SHI**  
A potentiometric cobalt-based phosphate sensor based on screen-printing technology
- 952 **Dongdong MA, Hongwen GAO**  
Reuse of heavy metal-accumulating *Cynodon dactylon* in remediation of water contaminated by heavy metals
- 960 **Jinfa CHEN, Ping YANG, Dagang SONG, Sha YANG, Li ZHOU, Lei HAN, Bo LAI**  
Biosorption of Cr(VI) by carbonized *Eupatorium adenophorum* and Buckwheat straw: thermodynamics and mechanism
- 967 **Tian WAN, Guangming ZHANG, Fengwei DU, Junguo HE, Pan WU**  
Combined biologic aerated filter and sulfur/ceramisite autotrophic denitrification for advanced wastewater nitrogen removal at low temperatures
