

CANADIAN JOURNAL OF PLANT SCIENCE

Volume 94, Number 3

Special Issue

Canadian Grain Commission, Grain Research Laboratory 100th Anniversary

- 100 Years of Excellence in Grain Research:**
Preface
P. A. Burnett 481-484
- Simple sequence repeat-based identification of Canadian malting barley varieties**
D. J. Perry, U. Fernando, and S.-J. Lee 485-496
- Low level presence of unapproved biotech materials: Current status and capability of DNA-based detection methods**
T. Demeke and D. J. Perry 497-507
- Canadian buckwheat: A unique, useful and under-utilized crop**
M. S. Izydorczyk, T. McMillan, S. Bazin, J. Kletke, L. Dushnicky, and J. Dexter 509-524
- Use of ultrasound to discern differences in Asian noodles prepared across wheat classes and between varieties**
S. Diep, D. Daugelaite, A. Strybulevych, M. Scanlon, J. Page, and D. Hatcher 525-534
- Evolution of a quality testing program for improving malting barley in Canada**
M. J. Edney, A. L. MacLeod, and D. E. LaBerge 535-544
- Effects of sprout damage on durum wheat milling and pasta processing quality**
B. X. Fu, D. W. Hatcher, and L. Schlichting 545-553
- Fate of moniliformin during milling of Canadian durum wheat, processing, and cooking of spaghetti**
S. A. Tittlemier, M. Roscoe, R. Trelka, S. K. Patrick, J. M. Bamforth, T. Gräfenhan, L. Schlichting, and B. X. Fu 555-563
- Effect of maturity on physicochemical and cooking characteristics in yellow peas (*Pisum sativum*)**
N. Wang and G. Castonguay 565-571
- Milling of Canadian oats and barley for functional food ingredients: Oat bran and barley fibre-rich fractions**
M. S. Izydorczyk, T. McMillan, S. Bazin, J. Kletke, L. Dushnicky, J. Dexter, A. Chepurna, and B. Rosnagel 573-586
- Comparison of harvest and export surveys of Canadian malting barley quality**
A. L. MacLeod, D. E. Langrell, and M. J. Edney 587-592
- Antioxidant activity of flaxseed meal components**
V. J. Barthet, D. Klensporf-Pawlik, and R. Przybylski 593-602
