

## 2014 SPRING MEETING OF THE WPSA UK BRANCH

Oral communications, invited talks and posters presented at the WPSA UK Branch Meeting held at Nottingham University, 29–30 April, 2014. These summaries have been edited for clarity and style by the WPSA UK Programme Committee and the Editors of *British Poultry Science* but have not been fully peer-reviewed.

- M. R. F. Lee, S. Parkinson, H. R. Fleming, V. J. Theobald, D. K. Leemans and A. Burgess.* The potential of blue lupin (*Lupinus angustifolius*) inclusion in the diet of laying chickens (*Gallus gallus domesticus*). 1
- V. Pirgozliev, S. P. Rose, P. Shewry, A. Lovegrove, T. Pellny, A. M. Amerah, M. Wickramasinghe, M. Ulker, M. Rakszegi and Z. Bedo.* Energy utilisation and growth performance of chickens fed novel wheat cultivars selected for different pentosan content with and without xylanase supplementation. 2
- L. Beeson, C. Walk, M. Bedford and O. Olukosi.* Growth performance and nutrient digestibility responses of broilers to high supplemental levels of phytase in diets adequate or deficient in non-phytate phosphorus and calcium. 4
- F. Khattak and O. Olukosi.* Effect of diets varying in n-6/n-3 fatty acid ratios in broilers on tissue oxidative stability under different storage conditions. 5
- E. D. Ellen, J. Visscher, T. Bas Rodenburg and P. Bijma.* Genetic approaches to reduce injurious pecking – challenges and possible solutions. 6
- S. L. Lambton, M. Friel, D. C. J. Main, J. L. McKinstry, C. M. Sherwin, J. Walton, C. A. Weeks and C. J. Nicol.* Management strategies to prevent injurious pecking in laying hens. 8
- M. Baxter, K. Morrissey and L. Dixon.* Effectiveness of enrichment items provided to laying hens and pullets. 9
- J. E. Hopkins, D. E. F. Mckeegan, J. Sparrey and V. Sandilands.* Assessing the humaneness of three mechanical devices for killing poultry on farm. 10
- K. Morrissey, T. Widowski, L. Baker and V. Sandilands.* Managing non-beak trimmed hens in furnished cages: using two strains of laying hens and extra environmental enrichment. 12
- L. M. Dixon, I. Dunn, S. Brocklehurst, V. Sandilands, M. Bateson, T. Boswell, B. J. Tolkamp, P. Wilson and R. B. D'eath.* Novel methods of assessing hunger in feed restricted broiler breeder hens. 13
- V. Pirgozliev, M. R. Bedford and S. P. Rose.* Interaction between supplementary *myo-inositol* and phytase in poultry diets: effect on dietary phosphorus digestibility. 14
- D. V. Scholey, P. E. V. Williams and E. J. Burton.* Serum uric acid levels in broiler chicks fed diets containing yeast protein up to 22 days of age. 15
- I. Leinonen, A. G. Williams and I. Kyriazakis.* Quantifying the environmental impacts of UK turkey systems through a Life Cycle Assessment. 17
- D. Swann, C. Evans and R. Ravindran.* A comparison of performance of broilers fed a nutritionally deficient broiler diet supplemented with two *E. Coli* phytases. 18
- K. J. Ellis, E. Billingham, S. J. Ward, D. V. Scholey and E. J. Burton.* Effect of a silicon supplement on efficacy of phytase in improving skeletal integrity in broilers. 19
- S. Pace, C. Walk, M. Bedford and H. Miller.* The effect of increasing phytase concentration in laying hen diets on bird performance. 20
- A. L. Wealleans, B. Vilà, A. M. Amerah and A. Awati.* The addition of *Bacillus amyloliquefaciens* strains to turkey diets improves performance at 112 days. 22

<i>N. Sparks, N. Strachan, R. Lowman and K. Forbes.</i> Can on-farm biosecurity be used to control the prevalence of <i>Campylobacter</i> in the UK chicken flock?	23
<i>U. Gadde, T. Rathinam, G. Erf and H. D. Chapman.</i> Immunity to the protozoan parasite <i>Eimeria adenoeides</i> in turkey poults and cellular responses to infection.	24
<i>N. Whenham, P. W. Wilson and I. C. Dunn.</i> The expansion and characterisation of the Ovodefensin family.	25
<i>T. C. Lu, P. W. Wilson, I. C. Dunn and N. Whenham.</i> Understanding factors influencing antimicrobial activity of Gallin; a member of the ovodefensin family.	26
<i>I. M. Whiting, V. R. Pirgozliev, S. P. Rose, A. M. Mackenzie and A. M. Amerah.</i> Batch variability of wheat distillers dried grains with solubles on amino acid digestibility and nutrient availability when fed to laying hens.	28
<i>O. Olukosi and J. Houdijk.</i> Composition and ileal digestibility of amino acids in the starch concentrate of dehulled faba bean ( <i>Vicia faba</i> ).	29
<i>I. Zahoor, D.-J. Dekoning, A. Basheer and P. M. Hocking.</i> Identification of novel genomic variations associated with blood and muscle calcium levels in chicken.	30
<i>N. K. Morgan, C. L. Walk, M. R. Bedford and E. J. Burton.</i> Contribution of intestinal and cereal derived phytase activity to phytate degradation in young broilers.	31
<i>A. Adebisi and O. Olukosi.</i> Growth performance and gastrointestinal tract characteristics of broilers receiving a diet containing wheat distillers dried grains with solubles supplemented with exogenous enzymes.	33
<i>D. Speller.</i> Embracing technology.	34
<i>R. Goncalves, I. Kuhn and O. Olukosi.</i> Variation in the dietary cationic and anionic levels and its effects on the efficacy of a 6-phytase in broilers.	34
<i>A. Beccaccia, V. Pirgozliev, S. Mansbridge and S. P. Rose.</i> Collection technique does not affect mucin concentration in ileal digesta.	36
<i>F. Shariatmadari, M. Torshizi and H. Ebrahimi.</i> Dietary supplementation and <i>in ovo</i> injection of 1 $\alpha$ -OHD $_3$ in low-calcium and low-phosphorus diets for broilers.	37
<i>N. Samat and H. Miller.</i> Effect of timing and length of feed withdrawal and refeeding periods on gut contents of young broilers.	38
<i>M. Fathi, I. Al-Homidan and B. Al-Habob.</i> Influence of probiotic and stocking density on body weight, blood haematology and thyroid hormones in broiler chicks.	39
<i>I. Al-Homidan, M. Fathi and A. Al-Shumaymiri.</i> The effect of litter type on ammonia, dust, carbon dioxide concentrations and broiler performance.	40
