

- 1 Growth and weed suppression ability of common and new cover crops in Germany
J. Brust, W. Claupein and R. Gerhards
- 9 Aflatoxin contamination of corn under different agro-environmental conditions and biocontrol applications
C. Accinelli, H.K. Abbas, A. Vicari and W.T. Shier
- 15 Management of the root-knot nematode *Meloidogyne graminicola* infesting rice in the nursery and crop field by integrating seed priming and soil application treatments of pesticides
M.R. Khan, Z. Haque and N. Kausar
- 26 Susceptibility to downy mildew (*Plasmopara viticola*) of different *Vitis* varieties
S. Boso, V. Alonso-Villaverde, P. Gago, J.L. Santiago and M.C. Martínez
- 36 Effects of box liner perforation area on methyl bromide diffusion into table grape packages during fumigation
J.G. Leesch, J.L. Smilanick, J.S. Muhareb, J.S. Tebbets, J.M. Hurley and T.M. Jones
- 41 Occurrence of *Telosma mosaic virus* causing passion fruit severe mosaic disease in Thailand and immunostrip test for rapid virus detection
P. Chiemsombat, S. Prammanee and N. Pipattanawong
- 48 Efficacy and environmental fate of copper sulphate applied to Australian rice fields for control of the aquatic snail *Isidorella newcombi*
M.M. Stevens, G. Doran and J. Mo
- 57 The control of isariopsis leaf spot and downy mildew in grapevine cv. Isabel with the essential oil of lemon grass and the activity of defensive enzymes in response to the essential oil
A.J. Maia, J.S.B. Oliveira, K.R.F. Schwan-Estrada, C.M.R. Faria, A.F. Batista, W.F. Costa and B.N. Batista
- 68 A novel method for controlling rice blast disease using fan-forced wind on paddy fields
Y. Taguchi, M.M. Elsharkawy, N. Hassan and M. Hyakumachi
- 76 European starling feeding activity on repellent treated crops and pellets
S.K. Tupper, S.J. Werner, J.C. Carlson, S.E. Pettit, J.C. Wise, C.A. Lindell and G.M. Linz

- 83 Induction of lignin and pathogenesis related proteins in dragon fruit plants in response to submicron chitosan dispersions
A. Ali, N. Zahid, S. Manickam, Y. Siddiqui, P.G. Alderson and M. Maqbool
- 89 Enhancement of biocontrol efficacy of *Pichia membranaefaciens* by hot water treatment in postharvest diseases of citrus fruit
Y. Zhou, L. Deng and K. Zeng
- 97 Management of *Meloidogyne incognita* in yam-based cropping systems with cover crops
A.O. Claudius-Cole, B. Fawole, R. Asiedu and D.L. Coyne
- 103 Potassium silicate and chitosan application for gray mold management in strawberry during storage
U.P. Lopes, L. Zambolim, H. Costa, O.L. Pereira and F.L. Finger
- 107 Integration of soil-applied herbicides at the reduced rates with physical control for weed management in fennel (*Foeniculum vulgare* Mill.)
A.R. Yousefi and M.R. Rahimi
- 113 Effects of soil disinfection on health status, growth and yield of strawberry stock plants
B. Meszka and E. Malusà
- 120 Influence of spray characteristics on potential spray drift of field crop sprayers: A literature review
M. Al Heidary, J.P. Douzals, C. Sinfort and A. Vallet
- 131 Resistance monitoring for eight insecticides in *Plutella xylostella* in central China
Y. Xia, Y. Lu, J. Shen, X. Gao, H. Qiu and J. Li
- 138 A note on replication of experiments
C. Ritz and J.C. Streibig
- 139 IAPPS News Letter 63C
- 141 Calendar
