Original Articles

- Soil sterilization effects on root growth and formation of rhizosheaths in wheat seedlings**
T. Mahmood, S. Mehnaz, F. Fleischmann, R. Ali, Z.H. Hashmi, Z. Iqbal _____ 123
- Limitless decomposition in leaf litter of Common beech: Patterns, nutrients' and heavy metal's dynamics**
Slavčo Hristovski, Björn Berg, Ljupčo Melovski _____ 131
- Changes in plant community structure and soil biota along soil nitrate gradients in two deciduous forests**
Katja Steinauer, Sharon Zytynska, Wolfgang W. Weisser, Nico Eisenhauer _____ 139
- Effects of dazomet on soil organisms and recolonisation of fumigated soil**
Jinu Eo, Kee-Choon Park _____ 147
- Production of rabbit dung triple-labelled with C, N and S stable isotopes**
W.S. Andriuzzi, O. Schmidt _____ 155
- Effects of addition of maize litter and earthworms on C mineralization and aggregate formation in single and mixed soils differing in soil organic carbon and clay content**
Christine Wachendorf, Martin Potthoff, Bernard Ludwig, Rainer Georg Joergensen _____ 161
- Collembola grazing on arbuscular mycorrhiza fungi modulates nutrient allocation in plants**
Christopher Ngosong, Elke Gabriel, Liliane Ruess _____ 171
- Vertical gradients of potential enzyme activities in soil profiles of European beech, Norway spruce and Scots pine dominated forest sites**
Nadine Herold, Ingo Schöning, Doreen Berner, Heike Haslwimmer, Ellen Kandeler, Beate Michalzik, Marion Schrumpf _____ 181
- Short Communication**
- Bacterial community structure in soil microaggregates and on particulate organic matter fractions located outside or inside soil macroaggregates**
Aimeric Blaud, Tiphaine Chevallier, Iñigo Virto, Anne-Laure Pablo, Claire Chenu, Alain Brauman _____ 191
- Obituary**
- Resolution of respect for Otto Graff (1917–2014)**
Stefan Schrader, Monika Joschko, Franz Makeschin _____ 195
