

Contents

Development of a quantitative GC-FID method for the determination of stearoyl-lactylates (E481/482) in foods <i>T. Cucu, K. Shrestha and B. De Meulenaer</i>	1929
Simultaneous determination of water-soluble vitamins in beverages and dietary supplements by LC-MS/MS <i>A. Kakitani, T. Inoue, K. Matsumoto, J. Watanabe, Y. Nagatomi and N. Mochizuki</i>	1939
Role of choline and glycine betaine in the formation of N,N-dimethylpiperidinium (mepiquat) under Maillard reaction conditions <i>T. Bessaire, A. Tarres, R.H. Stadler and T. Delatour</i>	1949
A novel multiplexed fluorescence polarisation immunoassay based on a recombinant bi-specific single-chain diabody for simultaneous detection of fluoroquinolones and sulfonamides in milk <i>M. Chen, K. Wen, X. Tao, S. Ding, J. Xie, X. Yu, J. li, X. Xia, Y. Wang, S. Xie and H. Jiang</i>	1959
Metals in commonly eaten groceries in Western Australia: a market basket survey and dietary assessment <i>A. Callan, A. Hinwood and A. Devine</i>	1968
Arsenic and lead in foods: a potential threat to human health in Bangladesh <i>M.S. Islam, M.K. Ahmed, M. Habibullah-Al-Mamun, K.N. Islam, M. Ibrahim and S. Masunaga</i>	1982
Arsenic: bioaccessibility from seaweed and rice, dietary exposure calculations and risk assessment <i>E.F.A. Brandon, P.J.C.M. Janssen and L. de Wit-Bos</i>	1993
Effects of different cleaning treatments on heavy metal removal of <i>Panax notoginseng</i> (Burk) F. H. Chen <i>L. Dahui, X. Na, W. Li, C. Xiuming, G. Lanping, Z. Zhihui, W. Jiajin and Y. Ye</i>	2004
Determination of radiostrontium in milk samples by ultra-low-level liquid scintillation counting: a validated approach <i>D. dell'Oro, M. Iannarino, N. Bortone, M. Mangiacotti and A.E. Chiaravalle</i>	2014
Foreign matter contaminating ethanolic extract of propolis: a filth-test survey comparing products from small beekeeping farms and industrial producers <i>A. Canale, F. Cosci, R. Canovai, P. Giannotti and G. Benelli</i>	2022
Quantitative profiling of oxylipins through comprehensive LC-MS/MS analysis of <i>Fusarium verticillioides</i> and maize kernels <i>M. Ludovici, C. Ialongo, M. Reverberi, M. Beccaccioli, M. Scarpari and V. Scala</i>	2026
Mycotoxin contamination of animal feedingstuff: detoxification by gamma-irradiation and reduction of aflatoxins and ochratoxin A concentrations <i>V. Di Stefano, R. Pitonzo, N. Cicero and M.C. D'Oca</i>	2034
Utilising an LC-MS/MS-based multi-biomarker approach to assess mycotoxin exposure in the Bangkok metropolitan area and surrounding provinces <i>B. Warth, A. Petchkongkaew, M. Sulyok and R. Krska</i>	2040
Effect of the bread-making process on zearalenone levels <i>S. Heidari, J. Milani and S.S.S.J. Nazari</i>	2047
Household dietary exposure to aflatoxins from maize and maize products in Kenya <i>R.M. Kilonzo, J.K. Imungi, W.M. Muiro, P.O. Lanuka and P.M.K. Njage</i>	2055
Negligible effects of tryptophan on the aflatoxin adsorption of sodium bentonite <i>A.P. Magnoli, P. Copia, M.P. Monge, C.E. Magnoli, A.M. Dalzero and S.M. Chiachiera</i>	2063
Simultaneous determination of multi-mycotoxins in palm kernel cake (PKC) using liquid chromatography-tandem mass spectrometry (LC-MS/MS) <i>S. Yibatathan, S. Jinap and N.A Mahiyudin</i>	2071
Validation of a lateral flow test (MRLAFMQ) for the detection of aflatoxin M ₁ at 50 ng l ⁻¹ in raw commingled milk <i>W. Reybroeck, S. Ooghe, S.J. Saul and R.S. Salter</i>	2080
Development and application of a non-targeted extraction method for the analysis of migrating compounds from plastic baby bottles by GC-MS <i>M. Ongghena, E. van Hoeck, P. Vervliet, M.L. Scippo, C. Simon, J. van Loco and A. Covaci</i>	2090
Corrigendum	2103
