

EDITORIAL

75 **Climate and the ballot box**

75 **Icy times**

OPINION & COMMENT

76 **Commentary: Extreme temperatures and violence**

Clionadh Raleigh, Andrew Linke and John O'Loughlin

77 **Commentary: Making the most of climate impacts ensembles**

Andy Challinor, Pierre Martre, Senthold Asseng, Philip Thornton and Frank Ewert

FEATURE

81 **Seeking a fair and sustainable future**

Anna Petherick

83 **News Feature: Clear storeys**

Elisabeth Jeffries

86 **Snapshot: Americans' views**

Monica Contestabile

RESEARCH HIGHLIGHTS

87 ***Our choice from the recent literature***

NEWS & VIEWS

89 **Psychology: Local weather and climate concern**

Patrick J. Egan and Megan Mullin

90 **Atmospheric science: A boost in big El Niño**

Nathaniel C. Johnson

91 **REDD+ policy: Corridors of carbon and biodiversity**

Oscar Venter

PERSPECTIVE

93 **Detection limits of albedo changes induced by climate engineering**

Dian J. Seidel, Graham Feingold, Andrew R. Jacobson and Norman Loeb

REVIEW ARTICLE

99 **Global bioenergy resources**

Raphael Slade, Ausilio Bauen and Robert Gross

LETTERS

106 **A quantitative evaluation of the public response to climate engineering**

Malcolm J. Wright, Damon A. H. Teagle and Pamela M. Feetham

111 **Increasing frequency of extreme El Niño events due to greenhouse warming**

Wenju Cai, Simon Borlace, Matthieu Lengaigne, Peter van Rensch, Mat Collins, Gabriel Vecchi, Axel Timmermann, Agus Santoso, Michael J. McPhaden, Lixin Wu, Matthew H. England, Guojian Wang, Eric Guilyardi and Fei-Fei Jin
