Original Articles

Tropical Rice Cultivars from Lowland and Upland Cropping Systems Differ in Iron Plaque Formation

Eduardo Gusmão Pereira, Marco Antonio Oliva, Advânio Inacio Siqueira-Silva, Laíse Rosado-Souza, Daniel Teixeira Pinheiro & Andréa Miyasaka Almeida pages 1373-1394

Rootstock Effect on Nutrient Concentration of Sweet Cherry Leaves

Károly Hrotkó, Lajos Magyar, Gergő Borsos & Márta Gyeviki pages 1395-1409

Lowland Rice Genotypes Evaluation for Nitrogen Use Efficiency

N. K. Fageria & A. B. Santos pages 1410-1423

Influence of Extraction Method and Solvent on Antioxidant Properties of Extracts of *Artemisia Aucheri* Plant from Kashan Province of Iran

Reza Dehghani Bidgoli, G. A. Heshmati & M. Pessarakli pages 1424-1432

Excess Nickel Modulates Oxidative Stress Responsive Enzymes in Groundnut

Rajeev Gopal pages 1433-1440

Responses to Low P-Supply in Breeding Lines of White Clover (*Trifolium Repens* L.) Reveals Two Tiers of Responses

Jollanda Effendy, Derek Woodfield, John Caradus & Michael T. McManus pages 1441-1454

Effects of Nutrient and NaCl Salinity on Growth, Yield, Quality and Composition of Pepper Grown in Soilless Closed System

Francesco Giuffrida, Giulia Graziani, Vincenzo Fogliano, Domenica Scuderi, Daniela Romano & Cherubino Leonardi pages 1455-1474

Production and Spad Reading in Marandu Palisadegrass Fertilized with Nitrogen and Magnesium

T. B. Garcez, M. M. Megda, A. G. Artur & F. A. Monteiro pages 1475-1486

Effect of Preharvest Sprays of Calcium on Cracking and 'Schattenmorelle' Sour Cherry Fruit Quality Harvested Mechanically

Paweł Wójcik & Paweł Wawrzyńczak pages 1487-1497

Farming Methods Effects on the Soil Fertility and Crop Production Under a Rice-Vegetables Cropping Sequences

Chong-Ho Wang

pages 1498-1513

Relative Nitrogen Fertilizer Requirements of Forage Versus Grain for Barley and Oat

S. S. Malhi, W. B. Berkenkamp & D. K. McBeath

pages 1514-1521

Remobilization of Phosphorus in Tea Plants

Roghieh Hajiboland & Seyed Yahia Salehi

pages 1522-1533

Reviews

Harnessing Plant Growth Promoting Rhizobacteria Beyond Nature: A Review

Aparna J. Tailor & Bhavesh H. Joshi

pages 1534-1571
