

PLANT DISEASE RESEARCH

VOLUME 29(2)

CONTENTS

Fungal Pathology

- My journey with prokaryotes in the last decade 118
Pushpinder Paul Singh
- Virulence and molecular variations of *Puccinia triticina*, the incitant of wheat leaf rust, in Egypt 124
Mohammed Saad Abou-Elseoud, Abd-Elmageed Mohammed Kamara, Omaima Abd-Ellatif Alaa-Eldein, Ahmed Farag El-Bebany, Nader Abd-Elwahab Ashmawy and Ibrahim Sobhy Draz
- Conidial size of *Erysiphe cichoracearum* as influenced by the host in sunflower 139
K. Karuna, Y.G. Shadakshari, K.S. Jagadish and K.N. Geetha
- Effect of date of sowing and plant density on the progress of powdery mildew of pea 143
S.K. Gupta, Amit Kumar and Meenu Gupta
- Integrated management of Sigatoka leaf spot disease of banana (*Musa* spp.) using newer fungicides 148
Dattatray L. Shinde, Susha S. Thara and Kamala Nayar
- In vitro* antagonistic potentials of native *Trichoderma* spp. against stem rot of French bean caused by *Sclerotium rolfsii* in Manipur 151
Y. Rajlakshmi Devi and Bireswar Sinha
- Effect of different mulches and biofertilizers on disease incidence/severity and yield of tomato 156
S.K. Singh, Arti Shukla, H.R. Sharma, Upender Singh and Ashok Thakur
- Fungicidal management of sugarcane rust 165
Sumangala E. Nalwar, A.R. Hundekar and Pushpa S. Hansi
- Evaluation of wheat cultivars for resistance against *Alternaria alternata* and associated fungi with black point 170
Mahendra Partap, V.A. Solanki, Jagdish Prasad and B.D.S. Nathawat
- Lasiodiplodia theobromae*: The causal agent of root rot and collar rot of biofuel plant (*Jatropha curcas*) and its variability 174
H.N. Prajapati, J.K. Patel and R.K. Patil

Mycology

- Evaluation of antibacterial potential of extracts from seven strains of *Lentinus edodes* 178
Shivani Sharma, P.K. Khanna and S. Kapoor

Bacteriology

- Efficacy of agro-chemicals for management of bacterial blight of pomegranate 185
Ashish and Anita Arora

Prevalence, isolation and standardization of growth media for <i>Xanthomonas axonopodis</i> pv. <i>citri</i> causing citrus canker <i>Dildeep Singh and S.K. Thind</i>	188
---	-----

Virology

First record of <i>Capsicum chlorosis virus</i> infecting capsicum in Himachal Pradesh <i>Ajay Brakta, Yogita Bohra, Anil Handa, P.D. Thakur</i>	193
Source of resistance against <i>Cucumber mosaic virus</i> and <i>Zucchini yellow mosaic virus</i> in melons <i>Shikha Sharma, Santokh S. Kang and Abhishek Sharma</i>	197
Effect of different doses of jasmonic acid against cotton leaf curl disease: Induced protein and latent carry over <i>Ritu Raj, P.S. Sekhon, M.K. Sangha and D. Pathak</i>	201

Short Communications

Bio-efficacy of different agro-chemicals for the management of foliar diseases in Bt cotton <i>Daljeet Singh and Narinder Singh</i>	209
Influence of abiotic environmental factors on <i>Graphiola</i> leaf spot of date palm <i>Sushil Sharma and Rakesh Mehra</i>	211
Field evaluation of different fungicides against <i>Alternaria</i> leaf blight of tomato in eastern Bihar <i>Gireesh Chand, Randhir Kumar, Amarendra Kumar, Santosh Kumar and J.N. Srivastava</i>	213
Efficacy of different fungicides against anthracnose of guava in eastern Uttar Pradesh <i>Gireesh Chand, Santosh Kumar, Sanjeev Kumar and Amarendra Kumar</i>	215
Effect of systemic and non-systemic fungicides on wilt of fenugreek incited by <i>Fusarium oxysporum</i> <i>Sanju Choudhary, K.S. Shekhawat, G.L. Kakraliya and M.K. Jat</i>	217
Abstracts of research papers - National Symposium on Plant Health for Sustainability in the Field and Horticultural Crops held at Citrus Research Station, Dr. Y.S.R. Horticultural University, Tirupati -517502, A.P. (India) on 18 th - 20 th November, 2014	219
Proceedings of the General Body Meeting	261
Author Index	264
