

Canadian Journal of Soil Science

Volume 94, Number 5 November 2014

Composition and Chemical Processes

- **Changes in amino acids content of humic acids sequentially extracted from peat and sod–Podzolic soil**
E. A. Vialykh, S. A. Ilarionov, H. M. Abdelrahman, I. A. Vialykh p.575-583

Physical Processes and Interfaces

- **Developing new potting mixes with *Sphagnum* fibers**
Philippe Jobin, Jean Caron, Line Rochefort p.585-593

Contamination and Environmental Stewardship

- **Detection and degradation of organic contaminants in an agricultural soil amended with alkaline-treated biosolids**
J. D. Gillis, G. W. Price, G. W. Stratton p. 595-604
- **Long-term changes in soil salinity as influenced by subsoil thickness in a reclaimed coal mine in east-central Alberta**
S. O. Olatuyi, L. A. Leskiw p. 605-620

Management for Agricultural, Forestry and Urban Uses

- **Wood ash as a forest soil amendment: The role of boiler and soil type on soil property response**
Stephanie Pugliese, Trevor Jones, Michael D. Preston, Paul Hazlett, Honghi Tran,
Nathan Basiliko
p.621-634

Author Index p.635-636

Subject Index p.637-641
