*Arid Environments*

Volume 112 Part B January 2015

**Special issue on Toxins in Desert Environments**

Guest Editors: Renee Richer, Paul Alan Cox

**Contents**

Cox, P.A. Introduction: Toxins in desert environments .....	125
Powell, J.T., Chatziefthimiou, A.D., Banack, S.A., Cox, P.A. & Metcalf, J.S. Desert crust microorganisms, their environment, and human health .....	127
Richer, R., Banack, S.A., Metcalf, J.S. & Cox, P.A. The persistence of cyanobacterial toxins in desert soils .....	134
Metcalf, J.S., Banack, S.A., Richer, R. & Cox, P.A. Neurotoxic amino acids and their isomers in desert environments .....	140
Richer, R.A. Industrial growth and anthropogenic pollutants in arid and hyper-arid environments .....	145
Downing, T.G., Phelan, R.R. & Downing, S. A potential physiological role for cyanotoxins in cyanobacteria of arid environments .....	147
Dunlop, R.A., Main, B.J. & Rodgers, K.J. The deleterious effects of non-protein amino acids from desert plants on human and animal health .....	152
Haidar, N.A. & Deitch, E. Snake bites in the Arabian Peninsula, a review article. ....	159
Castilla, A.M., Huey, R.B., Calvete, J.J., Richer, R. & Al-Hemaidi, A.H.M. Arid environments: Opportunities for studying co-evolutionary patterns of scorpion venoms in predator-prey systems .....	165
Abdel-Rahman, M.A., Harrison, P.L. & Strong, P.N. Snapshots of scorpion venomomics. ....	170
