

# Food Additives & Contaminants: Part A

Volume 32

Number 11

November 2015

## Contents

Evaluation of HS-SPME and ultrasonic solvent extraction for monitoring of plant flavours added by the bees to herbhoneys: traceability biomarkers <i>P.M. Kuś, Z. Marijanović and I. Jerković</i>	1761
Duplex real-time PCR method for the detection of sesame ( <i>Sesamum indicum</i> ) and flaxseed ( <i>Linum usitatissimum</i> ) DNA in processed food products <i>I.M. López-Calleja, S. de la Cruz, R. Martín, I. González and T. García</i>	1772
Assessment of caffeine intake in the Korean population <i>H.S. Lim, J.Y. Hwang, J.C. Choi and M. Kim</i>	1786
Safety assessment and single-dose toxicokinetics of the flavouring agent myricitrin in Sprague–Dawley rats <i>R.R. Maronpot, M. Koyanagi, J. Davis, L. Recio, D. Marbury, M. Boyle and S. Hayashi</i>	1799
Occurrence of fatty acid esters of 3-MCPD, 2-MCPD and glycidol in infant formula <i>F. Wöhrlin, H. Fry, M. Lahrssen-Wiederholt and A. Preiß-Weigert</i>	1810
Pharmacokinetics of tulathromycin in edible tissues of healthy and experimentally infected pigs with <i>Actinobacillus pleuropneumoniae</i> <i>T. Bladec, A. Posyniak, A. Jablonski and A. Gajda</i>	1823
Determination and surveillance of hydrocortisone and progesterone in livestock products by liquid chromatography–tandem mass spectrometry <i>T. Nakajima, Y. Tsuruoka, M. Kanda, H. Hayashi, T. Hashimoto, Y. Matsushima, S. Yoshikawa, C. Nagano, Y. Okutomi and I. Takano</i>	1833
Why semicarbazide (SEM) is not an appropriate marker for the usage of nitrofurazone on agricultural animals <i>R.H. Stadler, L. Verzeznassi, W. Seefelder and L. Racault</i>	1842
Dithizone-modified graphene oxide nano-sheet as a sorbent for pre-concentration and determination of cadmium and lead ions in food <i>H.R. Moghadam Zadeh, P. Ahmadvand, A. Behbahani, M.M. Amini and O. Sayar</i>	1851
Effect of increased intake of fish and mussels on exposure to toxic trace elements in a healthy, middle-aged population <i>M. Outzen, A. Tjønneland, E.H. Larsen, M. Hansen, K.K. Andersen, J. Christensen, K. Overvad and A. Olsen</i>	1858
Lead, cadmium and organochlorine pesticide residues in hunted red deer and wild boar from northern Italy <i>M. Chiari, C. Cortinovis, M. Bertolotti, L. Alborali, M. Zanoni, E. Ferretti and F. Caloni</i>	1867
Follow-up of the fate of imazalil from post-harvest lemon surface treatment to a baking experiment <i>A. Vass, E. Korpics and M. Demovics</i>	1875
Quantitative determination of sodium monofluoroacetate “1080” in infant formulas and dairy products by isotope dilution LC-MS/MS <i>T. Bessaire, A. Tarres, A. Goyon, P. Mottier, M. Dubois, W.P. Tan and T. Delatour</i>	1885
Di-(2-ethylhexyl) adipate and 20 phthalates in composite food samples from the 2013 Canadian Total Diet Study <i>X.-L. Cao, W. Zhao and R. Dabeka</i>	1893
A lab-on-a-chip-based multiplex platform to detect potential fraud of introducing pig, dog, cat, rat and monkey meat into the food chain <i>Md.A. Razzak, S.B.A. Hamid and Md.E. Ali</i>	1902
EU marker polycyclic aromatic hydrocarbons in food supplements: analytical approach and occurrence <i>Z. Zelinkova and T. Wenzl</i>	1914
Protective activity of probiotic bacteria against 2-amino-3-methyl-3H-imidazo[4,5-f]quinoline (IQ) and 2-amino-1-methyl-6-phenyl-1H-imidazo[4,5-b]pyridine (PhIP) – an <i>in vitro</i> study <i>A. Nowak, A. Czyżowska and M. Stańczyk</i>	1927
Pyrrrolizidine alkaloids in food and feed on the Belgian market <i>B. Huybrechts and A. Callebaut</i>	1939
Relative severity of fumonisin contamination of cereal crops in West Africa <i>H.F. Vismer, G.S. Shephard, J.P. Rheeder, L. van der Westhuizen and R. Bandyopadhyay</i>	1952
Metal release from coffee machines and electric kettles <i>F.D. Müller, C. Hackethal, R. Schmidt, O. Kappenstein, K. Pfaff and A. Luch</i>	1959
