

CONTENTS

Volume 77, Part 1, November 2015

SPECIAL ISSUE: IUFOST 2014 - 17th World Congress of Food Science & Technology - Research that Resonates

- 1** Effect of salts and pH on selected ketone flavours binding to salt-extracted pea proteins: The role of non-covalent forces
K. Wang, S.D. Arntfield (Canada)
- 10** Structural and functional characterization of yellow field pea seed (*Pisum sativum* L.) protein-derived antihypertensive peptides
R.E. Aluko, A.T. Girgih, R. He, S. Malomo, H. Li, M. Offengenden, J. Wu (Canada, PR China)
- 17** Gastrointestinal hormone modulation after a double-blind interventional study with unavailable carbohydrates
E.B. Giuntini, F.A.H. Sardá, M.C.Y. Lui, C.C. Tadini, F.M. Lajolo, E.W. Menezes (Brazil)
- 24** Caffeic acid improves memory impairment and brain glucose metabolism via ameliorating cerebral insulin and leptin signaling pathways in high-fat diet-induced hyperinsulinemic rats
W.-C. Chang, P.-L. Kuo, C.-W. Chen, J.S.-B. Wu, S.-C. Shen (Taiwan)
- 34** Effects of small molecular compounds in soymilk on the protein coagulation process: Ca^{2+} as coagulant
R. Wang, L. Xie, S. Guo (China)
- 43** Proteolytic hydrolysis of cowpea proteins is able to release peptides with hypocholesterolemic activity
M.R. Marques, G.G. Fontanari, D.C. Pimenta, R.M. Soares-Freitas, J.A.G. Arêas (Brazil)
- 49** Effect Of Ultra High-Pressure Homogenization on hydro- and liposoluble milk vitamins
G.G. Amador-Espejo, J.J. Gallardo-Chacon, H. Nykänen, B. Juan, A.J. Trujillo (Spain, Mexico)
- 55** Influence of feed viscosity on the two-phase flow inside the exit orifice of an effervescent atomizer and on resulting spray characteristics
P. Stähle, V. Gaukel, H.P. Schuchmann (Germany)
- 63** Preparation of liposomes using supercritical carbon dioxide technology: Effects of phospholipids and sterols
L. Zhao, F. Temelli, J.M. Curtis, L. Chen (Canada)
