

Environment Systems & Decisions

Volume 35 · Number 4 · December 2015

EDITORIAL

Application of systems modeling and risk assessment to address real-world decision-making challenges

Z.A. Collier · J.H. Lambert · I. Linkov 425

REVIEW

Adaptation frameworks used by US decision-makers: a literature review

S.A. Markolf · K. Klima · T.L. Wong 427

ORIGINAL PAPERS

A multi-attribute decision-making approach to the selection of point-of-use water treatment

S.A. Pagsuyoin · J.R. Santos · J.S. Latayan · J.R. Barajas 437

Energy technology investments in competitive and regulatory environments

E. Shittu · G. Parker · X. Jiang 453

The promise of asymmetric interventions for addressing risks to environmental systems

V. Campbell-Arvai · J. Arvai 472

Making a case for recycling biodegradable municipal waste

M. Fehr · C.A. Arantes 483

A systems thinking approach for enhancing adaptive capacity in small- and medium-sized enterprises: causal mapping of factors influencing environmental adaptation in Vietnam's textile and garment industry

N.H. Nguyen · R.J.S. Beeton · A. Halog 490

Percolation Model of insider threats to assess the optimum number of rules

J. Kepner · V. Gadepally · P. Michaleas 504

Assessing cumulative effects of multiple activities in New England watersheds

C.M. Foran · M.J. Narcisi · A.C. Bourne · I. Linkov 511

Forecast for the use of alternative fuels in aviation under environmental constraints and volatile market conditions

A.S. Jovanović · P. Klimek · F.A. Quintero 521
