**CONTENTS**

---

Effectiveness of afforested shrub plantation on ground-active arthropod communities and trophic structure in desertified regions R. Liu, F. Zhu and Y. Steinberger .....	1
Speciation and multivariable analyses of geogenic cadmium in soils at Le Gurnigel, Swiss Jura Mountains R.P. Quezada-Hinojosa, K.B. Föllmi, E. Verrecchia, T. Adatte and V. Matera .....	10
The importance of soil sampling depth for accurate account of soil organic carbon sequestration, storage, retention and loss K.R. Olson and M.M. Al-Kaisi .....	33
The origin and control of mega-gullies in Kinshasa (D.R. Congo) F.M. Imwangana, I. Vandecasteele, P. Trefois, P. Ozer and J. Moeyersons .....	38
An assessment of erosivity distribution and its influence on the effectiveness of land use conversion for reducing soil erosion in Jiangxi, China L. Xiao, X. Yang, S. Chen and H. Cai .....	50
Riparian land-use impacts on bank erosion and deposition of an incised stream in north-central Iowa, USA G.N. Zaimes and R.C. Schultz .....	61
Evidence of a Quaternary dammed Lake in the Mawat–Chwarta area, Western Zagros, Kurdistan Region, NE-Iraq P. Khanaqa, K.H. Karim and W. Riegel .....	74
Main types of soil mass failure and characteristics of their impact factors in the Yuanmou Valley, China A. Chen, D. Zhang, B. Yan, B. Lei and G. Liu .....	82
Flood susceptibility assessment using GIS-based support vector machine model with different kernel types M.S. Tehrani, B. Pradhan, S. Mansor and N. Ahmad .....	91
Root systems of native shrubs and trees in Hong Kong and their effects on enhancing slope stability F.T.Y. Leung, W.M. Yan, B.C.H. Hau and L.G. Tham .....	102
Geomorphological impacts of a tornado disturbance in a subtropical forest J. Phillips, D.A. Marion, C. Yocum, S.H. Mehlhope and J.W. Olson .....	111
Runoff from tropical alpine grasslands increases with areal extent of wetlands G.M. Mosquera, P.X. Lazo, R. Céleri, B.P. Wilcox and P. Crespo .....	120
Estimation of base flow using flow–sediment relationships in the Chinese Loess Plateau M. Zheng .....	129
Effects of slope aspect on soil nitrogen and microbial properties in the Chinese Loess region Y.-M. Huang, D. Liu and S.-S. An .....	135
Identifying a reference frame for calculating mass change during weathering: A review and case study utilizing the C# program <i>assessing element immobility</i> and critical ratio methodology T.L. Carrasco and G.H. Girty .....	146
Geologic aspects of ancient Villanovan settlement distributions in central Italy E.R. Force .....	162
Rescue and renewal of legacy soil resource inventories: A case study of the Limpopo National Park, Mozambique A.H. Cambule, D.G. Rossiter, J.J. Stoorvogel and E.M.A. Smaling .....	169

(continued from outside back cover)

Carbon mineralization following additions of fresh and aged biochar to an infertile soil R. Zhao, N. Coles and J. Wu .....	183
Changes of NPP and their relationship to climate factors based on the transformation of different scales in Gansu, China C. Liu, X. Dong and Y. Liu .....	190
Spatial distribution, ecological risk assessment and source identification for heavy metals in surface sediments from Dongping Lake, Shandong, East China Y. Wang, L. Yang, L. Kong, E. Liu, L. Wang and J. Zhu .....	200
Application of the SWAT hydrologic model to a tropical watershed at Brazil D.C. Fukunaga, R.A. Cecílio, S.S. Zanetti, L.T. Oliveira and M.A.C. Caiado .....	206
