

Research Papers

- Effect of ohmic heating on tomato peeling**
P. Wongsangasri and S.K. Sastry 269
- Pectin characterisation in vegetable waste streams: A starting point for waste valorisation in the food industry**
S. Christiaens, D. Uwibambe, M. Uyttebroeck, B. Van Droogenbroeck, A.M. Van Loey and M.E. Hendrickx 275
- Development of human colonic microbiota in the computer-controlled dynamic SIMulator of the GastroIntestinal tract SIMGI**
E. Barroso, C. Cueva, C. Peláez, M.C. Martínez-Cuesta and T. Requena 283
- Correlation between morphology, hydration kinetics and mathematical models on Andean lupin (*Lupinus mutabilis* Sweet) grains**
A.C. Miano, J.A. García and P.E.D. Augusto 290
- Influence of the cold storage time of raw beef meat and grilling parameters on sensory quality and content of heterocyclic aromatic amines**
A. Szterk and K. Jesionkowska 299
- Effect of salmon plasma protein on Pacific whiting surimi gelation under various ohmic heating conditions**
M.R. Fowler and J.W. Park 309
- The effect of water soluble fat replacers and fat reduction on the growth of *Lactobacillus sakei* and *Listeria monocytogenes* in broth and pork liver paté**
S. Samapundo, R. Xhaferi, S. Szczepaniak, O. Goemare, L. Steen, H. Paelinck and F. Devlieghere 316
- Interfacial peptide partitioning and undiminished antioxidative and emulsifying activity of oxidatively stressed soy protein hydrolysate in an O/W emulsion**
J. Zhao and Y.L. Xiong 322
- Development and evaluation of biodegradable polymeric nanoparticles for the effective delivery of quercetin using a quality by design approach**
V. Dinesh Kumar, P.R.P. Verma and S.K. Singh 330
- A comprehensive analysis of the nutritional quality of edible mushroom *Pleurotus sajor-caju* grown in deproteinized whey medium**
R. Mukhopadhyay and A.K. Guha 339
- Chemical characterization and use of artichoke parts for protection from oxidative stress in canola oil**
T. Claus, S.A. Maruyama, S.V. Palombini, P.F. Montanher, E.G. Bonafé, O. de Oliveira Santos Junior, M. Matsushita and J.V. Visentainer 346
- Stabilization of cooked cured beef color by radical-scavenging pea protein and its hydrolysate**
W. Sun and Y.L. Xiong 352

Optimization of formulation and process of Australian sweet lupin (ASL)-wheat bread <i>C.B.J. Villarino, V. Jayasena, R. Coorey, S. Chakrabarti-Bell and S. Johnson</i>	359
Simultaneous, rapid and sensitive detection of three food-borne pathogenic bacteria using multicolor quantum dot probes based on multiplex fluoroimmunoassay in food samples <i>B. Wang, Q. Wang, Z. Cai and M. Ma</i>	368
Changes in gel properties and water properties of <i>Nemipterus virgatus</i> surimi gel induced by high-pressure processing <i>X.-S. Ma, S.-M. Yi, Y.-M. Yu, J.-R. Li and J.-R. Chen</i>	377
Modelling of ochratoxin A photo-degradation by a UV multi-wavelength emitting lamp <i>R. Ibarz, A. Garvín, E. Azuara and A. Ibarz</i>	385
Effect of the Traditional, Charmat and Asti method production on the volatile composition of Moscato Giallo sparkling wines <i>V. Caliari, C.P. Panceri, J.P. Rosier and M.T. Bordignon-Luiz</i>	393
Effect of pre-hydration of chia (<i>Salvia hispanica</i> L.), seeds and flour on the quality of wheat flour breads <i>E. Steffolani, M.M. Martinez, A.E. León and M. Gómez</i>	401
Formulation and characterization of nanolaminated starch based film <i>A.M. Slavutsky and M.A. Bertuzzi</i>	407
Influence of linoleic acid-induced oxidative modifications on physicochemical changes and <i>in vitro</i> digestibility of porcine myofibrillar proteins <i>F. Zhou, M. Zhao, C. Cui and W. Sun</i>	414
Drop impact of gelatin coating formulated with cellulose nanofibers on banana and eggplant epicarps <i>R. Andrade, O. Skurtys and F. Osorio</i>	422
Influence of pH and temperature on the production of polygalacturonases by <i>Aspergillus fumigatus</i> <i>I.G. Sandri, R.C. Fontana and M. Moura da Silveira</i>	430
Bacterial bioeffectors delay postharvest fungal growth and modify total phenolics, flavonoids and anthocyanins in blackberries <i>B. Ramos-Solano, E. Algar, F.J. Gutierrez-Mañero, A. Bonilla, J.A. Lucas and D. García-Seco</i>	437
Multi-scale engineering properties of tomato fruits related to harvesting, simulation and textural evaluation <i>Z. Li, K. Lv, Y. Wang, B. Zhao and Z. Yang</i>	444
Microencapsulation by vibrating technology of the probiotic strain <i>Lactobacillus reuteri</i> DSM 17938 to enhance its survival in foods and in gastrointestinal environment <i>A. De Prisco, D. Maresca, D. Ongeng and G. Mauriello</i>	452
Evaluation of refrigerated storage in nitrogen-enriched atmospheres on the microbial quality, content of bioactive compounds and antioxidant activity of sauerkrauts <i>E. Peñas, C. Martínez-Villaluenga, J.-M. Pihlava and J. Frias</i>	463
Volatile compounds generation during different stages of the Tequila production process. A preliminary study <i>N. Prado-Jaramillo, M. Estarrón-Espinosa, H. Escalona-Buendía, R. Cosío-Ramírez and S.T. Martín-del-Campo</i>	471
Physicochemical and antimicrobial properties of nanoencapsulated <i>Eucalyptus staigeriana</i> essential oil <i>E.D. Herculano, H.C.B. de Paula, E.A.T. de Figueiredo, F.G.B. Dias and V.A. Pereira</i>	484
Lactic acid bacteria in hot smoked dry sausage (non-fermented salami): Thermal resistance of <i>Weissella viridescens</i> strains isolated from hot smoked dry sausages <i>J. Kameník, M. Dušková, O. Šedo, A. Saláková, Z. Pavlík, Z. Zdráhal and R. Karpíšková</i>	492
Changes in chemical, viscoelastic, and textural properties of nixtamalized dough with nejayote <i>C. Valderrama-Bravo, Y. López-Ramírez, S. Jiménez-Ambriz, A. Oaxaca-Luna, A. Domínguez-Pacheco, C. Hernández-Aguilar and E. Moreno-Martínez</i>	496
Natural sweet wine production by repeated use of yeast cells immobilized on <i>Penicillium chrysogenum</i> <i>T. García-Martínez, J. Moreno, J.C. Mauricio and R. Peinado</i>	503
Nutritional characterization and oxidative stability of α-linolenic acid in bread containing roasted ground flaxseed <i>P. Marpalle, S.K. Sonawane, J.G. LeBlanc and S.S. Arya</i>	510

Dissipation of chlorpyrifos-methyl by <i>Saccharomyces cerevisiae</i> during wheat fermentation <i>T.M. Đorđević and R.D. Đurović-Pejčev</i>	516
Effects of glazing and chitosan-based coating application on frozen salmon preservation during six-month storage in industrial freezing chambers <i>N.M.F. Soares, M.S.G. Oliveira and A.A. Vicente</i>	524
Determination of boron in Turkish wines by microwave plasma atomic emission spectrometry <i>N. Ozbek and S. Akman</i>	532
Chemical composition and antifungal activity of essential oil from the seed of <i>Echinophora platyloba</i> DC. against phytopathogens fungi by two different screening methods <i>M. Moghaddam, P. Taheri, A.G. Pirbalouti and L. Mehdizadeh</i>	536
Enzymatic browning reduction in white cabbage (<i>Brassica oleracea</i>) using honey: Does honey color matter? <i>B. Nyawali, D. Chungu, E. Chisha-Kasumu, R. Vinya, F. Chileshe and P. Ng'andwe</i>	543
Dairy <i>Debaryomyces hansenii</i> strains produce the antihypertensive casein-derived peptides LHLPLP and HLPLP <i>A. García-Tejedor, L. Sánchez-Rivera, I. Recio, J.B. Salom and P. Manzanares</i>	550
Starch facilitates enzymatic wheat gluten hydrolysis <i>N.A. Hardt, R.M. Boom and A.J. van der Goot</i>	557
Fruit fillings development: A multiparametric approach <i>A. Agudelo, P. Varela and S. Fiszman</i>	564
Effect of gamma irradiation and frozen storage on the quality of fresh water prawn (<i>Macrobrachium rosenbergii</i>) and tiger prawn (<i>Penaeus monodon</i>) <i>R. Mahto, S. Ghosh, M.K. Das and M. Das</i>	573
A mixture design study to determine interaction effects of wheat, buckwheat, and rice flours in an aqueous model system <i>M.T. Yilmaz, Ö. Yildiz, B. Yurt, O.S. Toker, S. Karaman and A. Baştürk</i>	583
Rapid and nondestructive detection of multiple adulterants in kudzu starch by near infrared (NIR) spectroscopy and chemometrics <i>L. Xu, W. Shi, C.-B. Cai, W. Zhong and K. Tu</i>	590
Application of pulsed light (PL)-surfactant combination on inactivation of <i>Salmonella</i> and apparent quality of green onions <i>W. Xu, H. Chen and C. Wu</i>	596
Protective effects of unsaponifiable matter from rice bran on oxidative damage by modulating antioxidant enzyme activities in HepG2 cells <i>H. Ham, S.W. Yoon, I.-H. Kim, J. Kwak, J.-S. Lee, H.-s. Jeong and J. Lee</i>	602
Bioactive compounds of tomato fruits from transgenic plants tolerant to drought <i>K. Shah, M. Singh and A. Chandra Rai</i>	609
Dried bilberry (<i>Vaccinium myrtillus</i> L.) extract fractions as antioxidants and cancer cell growth inhibitors <i>V.T. Šaponjac, J. Čanadanović-Brunet, G. Četković, S. Djilas and D. Četojević-Simin</i>	615
Bioprospecting Davidson's plum and quandong: Cytoprotective and proapoptotic activities <i>K. Sakulnarmrat, G. Srzednicki and I. Konczak</i>	622
Effect of degradation methods on the structural properties of citrus pectin <i>L. Zhang, X. Zhang, D. Liu, T. Ding and X. Ye</i>	630
Combined sterilizing effects of nano-ZnO and ultraviolet on convenient vegetable dishes <i>N. Yu, M. Zhang, M.N. Islam, L. Lu, Q. Liu and X. Cheng</i>	638
Calendar	I
