

CONTENTS

ORIGINAL ARTICLES

- 193 High soil moisture reduces common scab caused by *Streptomyces turgidiscabies* and *Streptomyces europaeiscabiei* in potato
T.J. Johansen, M.W. Dees and A. Hermansen
- 199 Manure increase the leaching risk of soil extractable organic nitrogen in intensively irrigated greenhouse vegetable cropping systems
Z. Quan, C. Lu, Y. Shi, X. Chen, B. Huang, Y. Wang, Y. Zhao and J. Ma
- 208 A nonpathogenic species of binucleate *Rhizoctonia* inhibits the formation of infection structures caused by *Rhizoctonia solani* on cucumber
N. Hassan, M.M. Elsharkawy, R. Villajuan-Abgona and M. Hyakumachi
- 215 Adsorption and degradation of 2,4-dichlorophenoxyacetic acid in spiked soil with Fe⁰ nanoparticles supported by biochar
B. Ying, G. Lin, L. Jin, Y. Zhao, T. Zhang and J. Tang
- 222 Grazing intensity and soil depth effects on soil properties in alpine meadow pastures of Qilian Mountain in northwest China
H. Yuan and F. Hou
- 233 Functional dependencies of soil CO₂ emissions on soil biological properties in northern German agricultural soils derived from a glacial till
Y. Wang, M. Bölter, Q. Chang, R. Duttmann, K. Marx, J.F. Petersen and Z. Wang
- 246 Aggregation and organic matter in subarctic Andosols under different grassland management
T. Lehtinen, G. Gísladóttir, G.J. Lair, J.P. van Leeuwen, W.E.H. Blum, J. Bloem, M. Steffens and K.V. Ragnarsdóttir
- 264 Effects of long-term cultivation on soil nitrogen transformation in the coastal wetland zone of east China
X. Jin and Y. Zhou
- 271 Relationships between stability of Cu complexes and nitrification inhibition effects of corresponding ligands in soils
Y. Shi, L. Zhang, M. Zhao, X. Xu and G. Wang

SHORT COMMUNICATION

- 279 Developing suppressive soil for root diseases of soybean with continuous long-term cropping of soybean in black soil of Northeast China
W. Wei, Y. Xu, S. Li, L. Zhu and J. Song
