

# Compost Science & Utilization

Volume 23, Number 2, 2015

## CONTENTS

### ARTICLES

- Pile Structure in Large Animal Carcass Compost Piles: Zone Differences  
in Physical and Chemical Characteristics 67  
*William Seekins, Mark Hutchinson, Mark King, and George MacDonald*
- Improvement of the Wettability Properties of Compost Using Seaweed 87  
*Saim Ozdemir, Omer H. Dede, and Ahmet Celebi*
- Application of Vermicomposts and Compost on Tomato Growth in Greenhouses 94  
*Manuel Tejada and Concepción Benítez*
- Fabrication of Cellulose Nanocrystals from Agricultural Compost 104  
*Rashmi R. Devi, Prodyut Dhar, Ajay Kalamdhad, and Vimal Katiyar*
- Effects of Manure Composts and Their Combination with Inorganic Fertilizer  
on Acid Soil Properties and the Growth of Muskmelon (*Cucumis melo* L.) 117  
*M. H. Vo and C. H. Wang*
- One-Step Extraction Procedure as an Easy Tool for Monitoring a Full-Scale  
Composting Plant 128  
*B. Temporal-Lara, I. Gómez, J. Navarro-Pedreño, and S. Raya*
