

Soil phosphorus fractions change in winter in a corn-soybean rotation with tillage and phosphorus fertilization Yi-Chao SHI, Noura ZIADI, Aimé J. MESSIGA, Roger LALANDE and HU Zheng-Yi.....	1
Estimates of soil organic carbon stocks in Zhejiang Province of China based on 1:50 000 soil database using the PKB method ZHI Jun-Jun, JING Chang-Wei, LIN Sheng-Pan, ZHANG Cao and WU Jia-Ping.....	12
Compost effect on diuron retention and transport in structured vineyard soils Mathieu THEVENOT and Sylvie DOUSSET .....	25
Kinetics of specific and non-specific copper sorption on aggregates of an acidic paddy soil from the Taihu Lake region in East China LIU Pei-Ya, WEN Qin-Liang, LI Yu-Jiao, DONG Chang-Xun and PAN Gen-Xing.....	37
Dynamics of CO <sub>2</sub> emission and biochemical properties of a sandy calcareous soil amended with <i>Conocarpus</i> waste and biochar Mohamed EL-MAHROUKY, Ahmed Hamdy El-NAGGAR, Adel Rabie USMAN and Mohammad Al-WABEL.....	46
Black locust transpiration responses to soil water availability as affected by meteorological factors and soil texture WU Yuan-Zhi, HUANG Ming-Bin and David N. WARRINGTON.....	57
Site-specific nitrogen management in dry direct-seeded rice using chlorophyll meter and leaf colour chart Ali Mohamed ALI, Harmit Singh THIND, Sandeep SHARMA and YADVINDER-SINGH .....	72
Soil acidification and heavy metals in urban parks as affected by reconstruction intensity in a humid subtropical environment HOU En-Qing, XIANG Hui-Min, LI Jian-Li, LI Jiong and WEN Da-Zhi .....	82
Dissolved organic nitrogen leaching from rice-wheat rotated agroecosystem in southern China SONG Ge, ZHAO Xu, WANG Shen-Qiang, XING Guang-Xi and ZHU Zhao-Liang .....	93
Effect of land use on soil erosion and nutrients in Dianchi Lake watershed, China NIU Xiao-Yin, WANG Yan-Hua, YANG Hao, ZHENG Jia-Wen, ZOU Jun, XU Mei-Na, WU Shan-Shan and XIE Biao.....	103
Leaf and ecosystem gas exchange responses of buffel grass-dominated grassland to summer precipitation Mir Zaman HUSSAIN, Gnaana SARASWATHI, Chhakchhuak LALRAMMAWIA, Dennis OTIENO, Kailash PALIWAL and John TENHUNEN.....	112
Effect of antimony on physiological responses of green Chinese cabbage and enzyme activities of Allitic Udic Ferrisols XIAO Xi-Yuan, GUO Zhao-Hui, LUO Yue-Ping, BI Jun-Ping, YANG Miao and HUANG Dong-Qin.....	124
Vegetable production after flooded rice improves soil properties in the Red River Delta, Vietnam Arij P. EVERAARTS, Jacques J. NEETESON, Pham T. T. HUONG and Paul C. STRUIK.....	130
Source identification of sulfur in uncultivated surface soils from four Chinese provinces XIAO Hua-Yun, LI Nan and LIU Cong-Qiang.....	140
Abundance and diversity of RuBisCO genes responsible for CO <sub>2</sub> fixation in arid soils of Northwest China TANG Zhi-Xi, FAN Fen-Liang, WAN Yun-Fan, WEI Wei and LAI Li-Ming.....	150
Relationships between arbuscular mycorrhizal symbiosis and soil fertility factors in citrus orchards along an altitudinal gradient WANG Peng, WANG Yin, SHU Bo, LIU Jin-Fa and XIA Ren-Xue.....	160
