

# *Journal of Natural Fibers*

---

- 97    Microwave-Assisted Bleaching of Wool Fabrics  
*Amira Abou El-Kheir, Karima Haggag, Salwa I. Mowafi, and Hosam El-Sayed*
- 108   Effects of Coir Fiber and Maleic Anhydride Modification on the Properties of Thermoplastic Starch/PLA Composite Laminates  
*Prayoon Surin, Pattana Rakkwamsuk, Ekachai Wimolmala, and Narongrit Sombatsompop*
- 121   Application of an Automatic Yarn Dismantler to Track Changes in Cotton Fiber Properties During Processing on a Miniature Spinning Line  
*Akbar Fassihi and Lawrence Hunter*
- 132   An Evaluation of Drapeability of Jute Fabric  
*Swapan Kumar Ghosh, Rajib Bhattacharyya, Chinmoy Dey, and Badrinath Mukherjee*
- 141   Ultrafine Wool and Cotton Powder and Their Characteristics  
*Ahmed G. Hassabo, Mohamed Salama, Amina L. Mohamed, and Crisan Popescu*
- 154   Microstructural Study, Tensile Properties, and Scanning Electron Microscopy Fractography Failure Analysis of Various Agricultural Residue Fibers  
*M. Siti Alwani, H.P.S. Abdul Khalil, Md. Nazrul Islam, O. Sulaiman, A. Zaidon, and Rudi Dungani*
- 169   Determination of the Most Commonly Recognized and Used Keratin Based Luxury Fibers  
*Riza Atav, Pelin Unal, Beyza Buzol Mulayim, Şener Ozturk, Canan Kazan, and Fatih Karaaslan*
- 185   Effect of Coir Fibers on the Tensile and Flexural Strength of Soft Marine Clay  
*Vivi Anggraini, Bujang B. K. Huat, Afshin Asadi, and Haslinda Nahazanan*
