Research Articles

- 1** Diffusion behavior of dextrans in dairy systems of different microstructures
J.V.C. SILVA, S. LORTAL, J. FLOURY (France)
- 9** The increased viability of probiotic *Lactobacillus salivarius* NRRL B-30514 encapsulated in emulsions with multiple lipid-protein-pectin layers
Y. ZHANG, J. LIN, Q. ZHONG (United States)
- 16** Direct observation and evaluation of cooked white and brown rice digestion by gastric digestion simulator provided with peristaltic function
Z. WANG, S. ICHIKAWA, H. KOZU, M.A. NEVES, M. NAKAJIMA, K. UEMURA, I. KOBAYASHI (Japan)
- 23** Properties of beta-lactoglobulin/alginate mixtures as a function of component ratio, pH and applied shear
Q. QOMARUDIN, J.D. ORBELL, L. RAMCHANDRAN, S.R. GRAY, M.B. STEWART, T. VASILJEVIC (Australia, Indonesia)
- 32** Mate tea-mediated reduction in catecholamine synthesis improves cutaneous wound healing of chronically stressed mice
B. ROMANA-SOUZA, T.C. PIRES, A. MONTE-ALTO-COSTA (Brazil)
- 41** Investigation of radio frequency heating uniformity of wheat kernels by using the developed computer simulation model
S. JIAO, Y. DENG, Y. ZHONG, D. WANG, Y. ZHAO (China, USA)
- 50** Impact of maceration enzymes on skin softening and relationship with anthocyanin extraction in wine grapes with different anthocyanin profiles
S. RÍO SEGADE, C. PACE, F. TORCHIO, S. GIACOSA, V. GERBI, L. ROLLE (Italy)
- 58** Bread baking and its color kinetics modeled by the spatial reaction engineering approach (S-REA)
A. PUTRANTO, X.D. CHEN, W. ZHOU (China, Australia, Indonesia, Singapore)
- 68** Chemical characterization and chemo-protective activity of cranberry phenolic powders in a model cell culture. Response of the antioxidant defenses and regulation of signaling pathways
M.A. MARTÍN, S. RAMOS, R. MATEOS, J.P.J. MARAIS, L. BRAVO-CLEMENTE, C. KHOO, L. GOYA (Spain, USA)
- 83** Synthesis and characterization of nanoparticles based on negatively charged xanthan gum and lysozyme
W. XU, W. JIN, Z. LI, H. LIANG, Y. WANG, B.R. SHAH, Y. LI, B. LI (China)
- 91** Potential use of new Colombian sources of betalains. Colorimetric study of red prickly pear (*Opuntia dillenii*) extracts under different technological conditions
M.J. CEJUDO-BASTANTE, N. HURTADO, F.J. HEREDIA (Spain, Colombia)

- 100** Fresh meat color evaluation using a structured light imaging system
C.H. Trinderup, Y.H.B. Kim (Denmark, United States)
- 108** Evaluation of the effect of fenhexamid and mepanipyrin in the volatile composition of Tempranillo and Graciano wines
R. Noguero-Pato, T. Sieiro-Sampedro, C. González-Barreiro, B. Cancho-Grande, J. Simal-Gándara (Spain)
- 118** Incorporation of soybean oil improves the dilutability of essential oil microemulsions
Q. Ma, Q. Zhong (USA)
- 126** Effects of orally administered immunodominant T-cell epitope peptides on cow's milk protein allergy in a mouse model
C.L. Thang, X. Zhao (Canada)
- 132** Iron-binding peptides from whey protein hydrolysates: Evaluation, isolation and sequencing by LC-MS/MS
M.E. Caetano-Silva, M.T. Bertoldo-Pacheco, A.F. Paes-Leme, F.M. Netto (Brazil)
- 140** Impact of growth conditions and role of *sigB* on *Listeria monocytogenes* fitness in single and mixed biofilms cultured with *Lactobacillus plantarum*
P. Saá Ibusquiza, M. Nierop Groot, A. Debán-Valles, T. Abee, H.M.W. den Besten (The Netherlands)
- 146** Kaempferol and quercetin interactions with model lipid membranes
N.P. Ulrih, M. Maričić, A. Ota, M. Šentjurc, V. Abram (Slovenia, Croatia)
- 155** Familiarity and liking playing a role on the perception of trained panelists: A cross-cultural study on teas
Y.-K. Kim, L. Jombart, D. Valentin, K.-O. Kim (Republic of Korea, France)
- 165** Modelling of 5-hydroxymethylfurfural photo-degradation by UV irradiation. Influence of temperature and pH
K. Aguilar, A. Garvin, E. Azuara, A. Ibarz (Spain, Mexico)
- 174** Microstructural and morphological behaviors of asparagus lettuce cells subject to high pressure processing
L. Zhang, J. Yao, Y. Zhang, X. Liao, F. Chen, X. Hu (China)
- 184** Corrigendum to "Hazelnut skin powder: A new brown colored functional ingredient" [Food Research International 65 (2014) 291-297]
K.S. Özdemir, C. Yilmaz, G. Durmaz, V. Gökmen (Turkey)
