
Research Papers

| | |
|---|-----|
| Growing a diverse urban forest: Species selection decisions by practitioners planting and supplying trees T.M. Conway and J. Vander Vecht (Mississauga, Canada) | 1 |
| Why agree to a conservation easement? Understanding the decision of conservation easement granting J.R. Farmer, V. Meretsky, D. Knapp (Bloomington, IN, USA), C. Chancellor (Clemson, SC, USA) and B.C. Fischer (Bloomington, IN, USA) | 11 |
| Regional Scale wind farm and solar farm suitability assessment using GIS-assisted multi-criteria evaluation J.J.W. Watson and M.D. Hudson (Southampton, UK) | 20 |
| Workplace settings and wellbeing: Greenspace use and views contribute to employee wellbeing at peri-urban business sites K. Gilchrist (Aberdeen, UK), C. Brown and A. Montarzino (UK)..... | 32 |
| The benefits of nature experience: Improved affect and cognition G.N. Bratman, G.C. Daily (Stanford, CA, USA), B.J. Levy (San Francisco, CA, USA) and J.J. Gross (Stanford, CA, USA)..... | 41 |
| Special Issue Section: Planning for urban green infrastructure in a changing climate: Advances and opportunities in research and practice | |
| Charting the green and climate-adaptive city C.Y. Jim, A.Y. Lo (Hong Kong, China) and J.A. Byrne (Gold Coast, Australia) | 51 |
| <i>Theme 1: Physical capacity for adaptation and challenges for urban planning</i> | |
| Assessing climate-adaptation effect of extensive tropical green roofs in cities C.Y. Jim (Hong Kong, China)..... | 54 |
| Green infrastructure as an adaptation approach to tackling urban overheating in the Glasgow Clyde Valley Region, UK R. Emmanuel (UK) and A. Loconsole (Italy) | 71 |
| Street greenery and its physical and psychological impact on thermal comfort W. Klemm, B.G. Heusinkveld, S. Lenzholzer and B. van Hove (The Netherlands) | 87 |
| <i>Theme 2: Designing green spaces for urban population in a changing climate</i> | |
| Effect of tree planting design and tree species on human thermal comfort in the tropics L.V. de Abreu-Harbich, L.C. Labaki (Campinas, Brazil) and A. Matzarakis (Freiburg, Germany) | 99 |
| Thermal comfort of outdoor spaces in Lahore, Pakistan: Lessons for bioclimatic urban design in the context of global climate change N. Mazhar, R.D. Brown, N. Kenny (Canada) and S. Lenzholzer (The Netherlands) | 110 |
| Designing urban parks that ameliorate the effects of climate change R.D. Brown (Guelph, Canada), J. Vanos (Lubbock, TX, USA), N. Kenny (Canada) and S. Lenzholzer (The Netherlands) | 118 |
| Residents' understanding of the role of green infrastructure for climate change adaptation in Hangzhou, China J.A. Byrne (Australia), A.Y. Lo (Hong Kong, China) and J. Yang (Hangzhou, China)..... | 132 |

(Continued from outside back cover)

Theme 3: Institutionalizing and mainstreaming adaptation in urban green infrastructural planning

| | |
|---|-----|
| Understanding the value of urban riparian corridors: Considerations in planning for cultural services along an Indonesian river D. Vollmer, M.F. Prescott (Singapore and Zurich, Switzerland), R. Padawangi (Singapore), C. Girot (Singapore and Zurich, Switzerland) and A. Grêt-Regamey (Zurich, Switzerland) | 144 |
| Reconceptualizing green infrastructure for climate change adaptation: Barriers to adoption and drivers for uptake by spatial planners T. Matthews (Brisbane, Australia), A.Y. Lo (Hong Kong, China) and J.A. Byrne (Australia)..... | 155 |
