Pedobiologia in 2015: The International Year of Soils

Jeff R. Powell, Nico Eisenhauer _____ 57

Original Articles

Functional role of microarthropods in soil aggregation

Stefanie Maaß, Tancredi Caruso, Matthias C. Rillig _____ 59

From patterns to causal understanding: Structural equation modeling (SEM) in soil ecology

Nico Eisenhauer, Matthew A. Bowker, James B. Grace, Jeff R. Powell _____ 65

Parent materials have stronger effects than land use types on microbial biomass, activity and diversity in red soil in subtropical China

Huan Deng, Yong-Jie Yu, Jin-E. Sun, Jin-Bo Zhang, Zu-Cong Cai, Guang-Xia Guo, Wen-Hui Zhong _____ 73

Functional diversity of soil microbial communities under Scots pine, Norway spruce, silver birch and mixed boreal forests

Marcin Chodak, Beata Klimek, Hamed Azarbad, Małgorzata Jaźwa _____ 81

Influence of sand burial on cultivable micro-fungi inhabiting biological soil crusts

Isabella Grishkan, Rong Liang Jia, Xin Rong Li _____ 89

Burrowing and casting activities of three endogeic earthworm species affected by organic matter location

Alexis Le Couteux, Cédric Wolf, Vincent Hallaire, Guénola Pérès _____ 97

Covariation of soil bacteria functional diversity and vegetation diversity along an altitudinal climatic gradient in the Western Carpathians

Beata Klimek, Maria Niklińska, Małgorzata Jaźwa, Agata Tarasek, Izabela Tekielak, Łukasz Musielok _____ 105

Short Communication

Congruence of community structure between taxonomic identification and T-RFLP analyses in free-living soil nematodes

Paul B.L. George, Zoë Lindo _____ 113
