

CONTENTS

Research articles

- Genetic parameters for milk components including lactose from test day records in the New Zealand dairy herd
NW Sneddon, N Lopez-Villalobos, SR Davis, RE Hickson and L Shalloo 97
- Quick tests for detecting glyphosate-resistant Italian and perennial ryegrass
H Ghanizadeh, KC Harrington, TK James and DJ Woolley 108
- Comparison of dicyandiamide and biochar for reducing nitrate leaching under winter forage grazing in Canterbury, New Zealand
AJ Hill, HJ Di, KC Cameron and A Podolyan 121
- Comparison between APSIM and NZ-DNDC models when describing N-dynamics under urine patches
DL Giltrap, I Vogeler, R Cichota, J Luo, TJ van der Weerden and CAM de Klein 131
- Effects of body condition score and nutrition in lactation on twin-bearing ewe and lamb performance to weaning
RA Corner-Thomas, RE Hickson, ST Morris, PJ Back, AL Ridler, KJ Stafford and PR Kenyon 156
- Potential phosphorus losses from organic and podzol soils: prediction and the influence of soil physico-chemical properties and management
BM Simmonds, RW McDowell, LM Condrón and T Jowett 170
- Evaluation of infection with endophytes in seeds of forage species with different levels of ploidy
MF Franco, MN Colabelli, LR Petigrosso, JP De Battista and MM Echeverría 181
- Calibration of the APSIM-Lucerne model for 'Grasslands Kaituna' lucerne crops grown in New Zealand
DJ Moot, J Hargreaves, HE Brown and EI Teixeira 190
- Review article**
- Review of greenhouse gas emissions from the storage and land application of farm dairy effluent
J Laubach, S Heubeck, C Pratt, KB Woodward, B Guieysse, TJ van der Weerden, ML Chung, AN Shilton and RJ Craggs 203
- Short communication**
- Effects of symbiotic *Epichloë gansuensis* endophyte on drunken horse grass (*Achnatherum inebrians*) growth and seed production
XX Zhang, C Xia and ZB Nan 234
