

CONTENTS

Research Reports

- Dietary clinoptilolite influences antioxidant capability and oxidative status of broilers**
Q. J. Wu, Y. Q. Wang, Y. M. Zhou, and T. Wang 99
- Effect of hatch location and diet density on footpad dermatitis and growth performance in broiler chickens**
I. C. de Jong, A. Lourens, and J. van Harn 105
- Impacts of calcium and phosphorus concentration, their ratio, and phytase supplementation level on growth performance, foot pad lesions, and hock burn of broiler chickens**
E. Delezie, K. Bierman, L. Nollet, and L. Maertens 115
- Replacement effect of vitamin E with grape polyphenols on antioxidant status, immune, and organs histopathological responses in broilers from 1- to 35-d age**
Z. Iqbal, Z. Kamran, J. I. Sultan, A. Ali, S. Ahmad, M. I. Shahzad, U. Ahsan, S. Ashraf, and M. U. Sohail 127
- Effects of increasing dried distillers' grains with solubles and non-starch polysaccharide degrading enzyme inclusion on growth performance and energy digestibility in broilers**
A. Campasino, M. Williams, R. Latham, C. A. Bailey, B. Brown, and J. T. Lee 135
- Products to alleviate the effects of necrotic enteritis and aflatoxin on growth performance, lesion scores, and mortality in young broilers**
R. L. Cravens, G. R. Goss, F. Chi, E. D. DeBoer, S.W. Davis, S. M. Hendrix, and S. L. Johnston 145
- Pathogen re-colonization of in-house composted and noncomposted broiler litter**
J. P. Brooks, M. R. McLaughlin, A. Adeli, and D. M. Miles 157
- Preparation and evaluation of inactivated avian Metapneumovirus vaccine from recently isolated Egyptian strain**
S. M. Tamam, A. S. Hussein, A. M. Arafa, and H. M. Madbouly 168
- The effects of drought-affected grain and carbohydrase inclusion in starter diets on broiler chick performance**
A. D. Yoder, R. S. Beyer, and C. K. Jones 177
- Bioactive berry juice byproducts as alternative and natural inhibitors for *Salmonella Gallinarum* and *Salmonella Pullorum***
S. Salaheen, C. Nguyen, C. Mui, and D. Biswas 186
- Early feed restriction in broilers. II: Body composition and nutrient gain**
F. M. Butzen, M. M. Vieira, A. M. Kessler, P. C. Aristimunha, F. R. Marx, L. Bockor, and A. M. L. Ribeiro 198
- Effects of algae incorporation into broiler starter diet formulations on nutrient digestibility and 3 to 21 d bird performance**
A. M. Evans, D. L. Smith, and J. S. Moritz 206

Field Reports

- Bird flu (H7N9) outbreak and its implications on the supply chain of poultry meat in China**
S. G. Khokhar, Q. Min, and C. Su 215
- On farm prevention of *Campylobacter* and *Salmonella*: lessons learned from basic biosecurity interventions**
E. L. Dale, S. P. Nolan, R. D. Berghaus, and C. L. Hofacre 222
- Application of participatory epidemiology techniques to investigate Newcastle disease among rural farmers in Zamfara state, Nigeria**
A. H. Jibril, J. U. Umoh, J. Kabir, M. M. Gashua, and M. B. Bello 233
- Detection of *Campylobacter* in 100 commercial flocks—Evaluation of plating media and filtration method**
M. E. Berrang, N. A. Cox, R. J. Meinersmann, B. B. Oakley, and J. E. Line 240

Review Articles

- A framework for assessing the efficacy of antimicrobials in the control of necrotic enteritis in broiler chickens**
G. Chan, A. Guthrie, T. Sivaramalingam, J. Wilson, D. Vancaeynest, R. Moody, and S. Clark 246
- New issues and science in broiler chicken intestinal health: Emerging technology and alternative interventions**
T. Roberts, J. Wilson, A. Guthrie, K. Cookson, D. Vancaeynest, J. Schaeffer, R. Moody, and S. Clark 257

Symposium: Modeling Amino Acid Requirements of Poultry

- Modeling amino acid requirements of poultry**
N. K. Sakomura, E. P. Silva, J. C. P. Dorigam, R. M. Gous, and N. St-Pierre 267
- Recent developments in determination of available phosphorus in poultry**
Y. Shastak and M. Rodehutscord 283

Erratum

- Withdrawal: Evaluation of beta-mannanase and NSPase inclusion separately or intermittently in reduced energy diets fed to male broilers on performance parameters and carcass yield**
M. P. Williams, B. Brown, S. Rao, and J. T. Lee 293
