

SPECIAL ISSUE: International Working Group Of Ostrinia And Other Maize Pests (Iwgo) – Conference Proceedings**ISSUE EDITORS: ULRICH KUHLMANN, THOMAS W. SAPPINGTON, ZHENYING WANG****EDITORIAL****U. KUHLMANN, T. W. SAPPINGTON, Z. WANG**

Special issue highlighting research presented at the 25th IWGO Conference, Chicago 2014 401–402

ORIGINAL CONTRIBUTIONS**A. M. HOFFMANN, B. W. FRENCH, R. L. HELLMICH, N. LAUTER, A. J. GASSMANN**

Fitness costs of resistance to Cry3Bb1 maize by western corn rootworm 403–415

N. J. MILLER, Z. ZHAOTranscriptional responses of *Diabrotica virgifera virgifera* larvae to benzoxazinoids 416–423**J. C. ALOUW, N. J. MILLER**Effects of benzoxazinoids on specialist and generalist *Diabrotica* species 424–431**H. LI, C. KHAJURIA, M. RANGASAMY, P. GANDRA, M. FITTER, C. GENG, A. WOOSLEY, J. HASLER, G. SCHULENBERG, S. WORDEN, R. MCEWAN, C. EVANS, B. SIEGFRIED, K. E. NARVA**

Long dsRNA but not siRNA initiates RNAi in western corn rootworm larvae and adults 432–445

J. G. LUNDGREN, T. MCDONALD, T. A. RAND, S. W. FAUSTI

Spatial and numerical relationships of arthropod communities associated with key pests of maize 446–456

D. BABENDREIER, P. JEANNERET, C. PILZ, S. TOEPFER

Non-target effects of insecticides, entomopathogenic fungi and nematodes applied against western corn rootworm larvae in maize 457–467

A. EBEN, A. ESPINOSA DE LOS MONTEROS

Trophic interaction network and the evolutionary history of Diabroticina beetles (Chrysomelidae: Galerucinae) 468–477

Y.-J. LIU, T.-T. ZHANG, S.-X. BAI, K.-L. HE, Z.-Y. WANGEffects of host plants on the fitness of *Athetis lepigone* (Möschler) 478–485
