

Plant Growing

Evaluation of Ecological Stability and Plasticity of Inbred Lines of Winter Rye <i>A. A. Goncharenko, A. V. Makarov, S. A. Ermakov, T. V. Semenova, and V. N. Tochilin</i>	87
Nitrate Assimilation in Wheat Plants Depending on Nitrogen Nutrition and Environmental Conditions <i>N. T. Nilovskaya and T. L. Kurnosova</i>	95
Impact of Extreme Drought on Mycorrization of <i>Triticum aestivum</i> L. Roots in the Southern Urals <i>Z. M. Kuramshina and R. M. Khairullin</i>	99
Creation of Barley Genotypes with Complex Resistance to Edaphic Stresses by Methods of Cell Culture <i>O. N. Shupletsova, I. N. Shchennikova, and I. G. Shirokikh</i>	102
Investigating the Effect of Growth Regulator, Furolan on Starch and Protein Contents in Winter Wheat Cultivars <i>Essien Okon, Hannah Etta, and Natali Nenco</i>	107
Allelopathic Potential of Canola and Wheat to Control Weeds in Soybean (<i>Glycine max</i>) <i>Alireza Dadkhah</i>	111
Physiological Indices, Biomass and Economic Yield of Maize Influenced by Humic Acid and Nitrogen Levels <i>Kamran Azeem, Shaheen Shah, Naveed Ahmad, Syed Tanveer Shah, Farmanullah Khan, Yaser Arafat, Farah Naz, Imran Azeem, and Muhammad Ilyas</i>	115
Possible Mechanisms of Multidirectional Oil Impacts on Seed Germination <i>V. I. Polonskiy and D. E. Polonskaya</i>	120
Effectiveness of Potato Cultivation under Irrigation in the Ural Steppe Zone <i>I. P. Kruzhilin, N. N. Dubenok, A. A. Mushinsky, and A. P. Nesvat</i>	123
Productivity of the Buckwheat Mutant form Determinate Floret cluster <i>A. N. Fesenko, O. V. Biryukova, and O. A. Shipulin</i>	128
Application of Biological Factors for Increasing Productivity and Implementation of Habitat-Forming Potential of Pea Varieties <i>Yu. V. Kuzmicheva and N. V. Parakhin</i>	132
Increase of Efficiency of Plant Clonal Propagation In Vitro by Means of Laser Radiation <i>N. V. Solovykh and A. V. Budagovsky</i>	135

Plant Protection

Comparative Efficacy of Neem Oil and Lambdacyhalothrin against Whitefly (<i>Bemesia tabaci</i>) and Jassid (<i>Amrasca Devastans</i> Dist.) in Okra Field <i>Hafeez-ur-Rehman, Muhammad Nadeem, Mahmood Ayyaz, and Husn Ara Begum</i>	138
--	-----

Nanotechnology

Sprouting of Pepper and Tomato Seeds with the Use of Multiwalled Carbon Nanotubes

D. V. Onishchenko, V. P. Reva, V. G. Kuryavyi, and B. A. Voronov

146

Agrochemistry. Soil Science

Application of Composite Compost Resulted in Changes of the Agrochemical Properties of Ordinary Chernozem and Winter Wheat Productivity in Western Ciscaucasia

I. S. Belyuchenko and D. A. Antonenko

150

Influence of Ameliorants and Fertilizers on the Productivity and Environmental Safety of Crops Grown on Soils Polluted with Lead

A. V. Lednev and A. V. Lozhkin

154

Irrigation

Need for Bilateral Regulation of Soil Water Regimes in Nonblack-Soil Zone Agriculture in Russia

N. G. Kovalev, V. N. Zinkovsky, T. S. Zinkovskaya, and O. N. Antsiferova

158

Animal Husbandry

Assessment of Sire Reproductive Potential Using Laboratory Investigations of Semen

V. A. Bagirov, B. S. Iolchiev, A. V. Tadzjeva, and P. M. Klenovitsky

162

Analysis of Relationship between Viability of Cows, Herd Turnover Rate, and Milk Production Efficiency (System and Algorithm Modeling)

G. G. Cherepanov and Z. N. Makar

166

Pancreatic Exocrine Function in Hens with Addition of Lysine and Methionine to Their Ration

V. G. Vertiprakhov

171

Assessment of Certain Indices of Lipid Peroxidation in Blood of Guinea Fowl (*Numida meleagris* L.)

O. V. Popova, V. A. Zabiyakin, N. V. Glotov, A. B. Trubyanov, A. V. Chernyad'eva, and N. I. Ivanushkina

175

Veterinary Science

Immunological Properties of Attenuated Variants of African Swine Fever Virus Isolated in the Russian Federation

V. I. Balysheva, E. Yu. Prudnikova, T. V. Galnbek, and V. M. Balyshv

178

Modeling

Arid Ecosystem Dynamics and Self-Pulse Processes

K. N. Kulik and A. N. Salugin

183

Prospects of Application of Dynamic Crop Models in the Problems of Midterm and Long-Term Planning of Agricultural Production and Land Management

V. L. Badenko, V. V. Garmanov, D. A. Ivanov, A. N. Savchenko, and A. G. Topaj

187

Mechanization

High-Temperature Treatment of Mixed Feeds

V. I. Svrovatka

191
