

Contents

Authentication of yerba mate according to the country of origin by using Fourier transform infrared (FTIR) associated with chemometrics <i>M.C.A. Marcelo, D. Pozebon and M.F. Ferrão</i>	1215
A suitable method to detect potential fraud of bringing Malayan box turtle (<i>Cuora amboinensis</i>) meat into the food chain <i>Md. E. Ali, Asing, S.B.A. Hamid, Md. A. Razzak, N.R.A. Rashid, Md. Al Amin and S. Mustafa</i>	1223
Influence of the interactions between tea (<i>Camellia sinensis</i>) extracts and ascorbic acid on their antioxidant activity: analysis with interaction indexes and isobolograms <i>J. Enko and A. Gliszczynska-Swigto</i>	1234
Analysis of lasalocid residues in grease and fat using liquid chromatography-mass spectrometry <i>S.B. Clark, J.M. Storey, J.R. Carr and M. Madson</i>	1243
Measurement of ampicillin residue levels in chicken eggs during and after medicated feed administration by LC-MS/MS <i>K. Hamamoto, R. Akama and Y. Mizuno</i>	1249
Concentrations of dimethylaniline and other metabolites in milk and tissues of dairy cows treated with lidocaine <i>R.L.A.P. Hoogenboom, T. Zuidema, M. Essers, A.M. van Vuuren, P.G. van Wikselaar, J.C.H. van Eijkeren, M.J.B. Mengelers, M.J. Zeilmaier and A.S. Bulder</i>	1256
Cadmium body burden of the Swiss population <i>J. Jenny-Burri, M. Haldimann, B.J. Brüscheweiler, M. Bochud, M. Burnier, F. Paccaud and V. Dudler</i>	1265
Estimation of biological half-life of urinary cadmium in inhabitants after cessation of environmental cadmium pollution using a mixed linear model <i>M. Ishizaki, Y. Suwazono, T. Kido, M. Nishijo, R. Honda, E. Kobayashi, K. Nogawa and H. Nakagawa</i>	1273
Assessment of mercury and cadmium via seafood consumption in Italy: estimated dietary intake (EWI) and target hazard quotient (THQ) <i>G. Barone, A. Storelli, R. Garofalo, V.P. Busco, N.C. Quaglia, G. Centrone and M.M. Storelli</i>	1277
Multi-residue analysis of pesticides in traditional Chinese medicines using gas chromatography-negative chemical ionisation tandem mass spectrometry <i>J. Nie, S. Miao, S.J. Lehotay, W.-T. Li, H. Zhou, X.-H. Mao, J.-W. Lu, L. Lan and S. Ji</i>	1287
Concentrations of dioxins and dioxin-like PCBs in feed materials in the Netherlands, 2001–11 <i>P. Adamse, H.J. (Ine) Van der Fels-Klerx, S. Schoss, J. de Jong and R.L.A.P. Hoogenboom</i>	1301
Modified halloysite nanotubes and the alleviation of kidney damage induced by dietary zearalenone in swine <i>Z. Jia, S. Yin, M. Liu, Y. Zhang, R. Gao, B. Shi, A. Shan and Z. Chen</i>	1312
Longitudinal evaluation of aflatoxin exposure in two cohorts in south-western Uganda <i>M.-S. Kang, P. Nkurunziza, R. Muwanika, G. Qian, L. Tang, X. Song, K. Xue, A. Nkwata, J. Ssempebwa, T. Lutalo, G. Asiki, D. Serwadda, J. Seeley, P. Kaleebu, F. Nalugoda, R. Newton, J.H. William and J.-S. Wang</i>	1322
Comparing different gas chromatographic methods for the quantification of bisphenol A (BPA) trace levels in paper and cardboard products from the market <i>A. Jurek and E. Leitner</i>	1331
Natural co-occurrence of ochratoxin A, ochratoxin B and aflatoxins in Sicilian red wines <i>V. Di Stefano, G. Avellone, R. Pitonzo, V.G. Capocchiano, A. Mazza, N. Cicero and G. Dugo</i>	1343
High-throughput determination of citrinin in rice by ultra-high-performance liquid chromatography and fluorescence detection (UHPLC-FL) <i>J.F. Huertas-Pérez, N. Arroyo-Manzanares, A.M. García-Campaña and L. Gámiz-Gracia</i>	1352
Migration of Tinuvin P and Irganox 3114 into milk and the corresponding authorised food simulant <i>Z. Bodai, C. Kirckeszner, M. Novák, Z. Nyiri, J. Kovács, N. Magyar, B. Iván, T. Rikker and Z. Eke</i>	1358
Inter-laboratory comparison study on the determination of primary aromatic amines in cold water extracts of coloured paper napkins <i>S. Merkel, S. Richter, J. Weyer, O. Kappenstein, K. Pfaff and A. Luch</i>	1367
