

## CONTENTS

- Faměra O., Mayerová M., Burešová I., Kouřimská L., Prášilová M.:  
Influence of selected factors on the content and properties of starch  
in the grain of non-food wheat ..... 241
- Andruszczak S., Gawlik-Dziki U., Kraska P., Kwiecińska-Poppe E., Różyło K., Pałys E.:  
Yield and quality traits of two linseed (*Linum usitatissimum* L.)  
cultivars as affected by some agronomic factors ..... 247
- Cai T., Zhang C., Huang Y., Huang H., Yang B., Zhao Z., Zhang J., Jia Z.:  
Effects of different straw mulch modes on soil water storage and water use efficiency  
of spring maize (*Zea mays* L.) in the Loess Plateau of China ..... 253
- Yang L., Cao W., Thorup-Kristensen K., Bai J., Gao S., Chang D.:  
Effect of *Orychophragmus violaceus* incorporation on nitrogen uptake in succeeding maize ..... 260
- Jankowski K.J., Kijewski Ł., Krzebietke S., Budzyński W.S.:  
The effect of sulphur fertilization on macronutrient concentrations in the post-harvest  
biomass of mustard ..... 266
- Lenart-Boroń A., Wolny-Koładka K.:  
Heavy metal concentration and the occurrence of selected microorganisms in soils  
of a steelworks area in Poland ..... 273
- Procházka P., Štranc P., Pazderů K., Štranc J., Jedličková M.:  
The possibilities of increasing the production abilities of soya vegetation by seed treatment  
with biologically active compounds ..... 279
- Zemanová V., Pavlík M., Pavlíková D., Kyjaková P.:  
Changes in the contents of amino acids and the profile of fatty acids in response  
to cadmium contamination in spinach ..... 285
