

Compost Science & Utilization

Volume 23, Number 3, 2015

CONTENTS

ARTICLES

- Changes in Soil Quality by Compost and Hazelnut Husk Applications in a Hazelnut Orchard 135
Coskun Gülser, Rıdvan Kızılkaya, Tayfun Askin, and Imanverdi Ekberli
- Effects of Vermicompost and Arbuscular Mycorrhizal Fungi on Soil Properties and Growth of *Medicago polymorpha* L. 142
Davoud Akhzari, Behnaz Attaeian, Abdolhossein Arami, Farnaz Mahmoodi, and Fariba Aslani
- Composting *Posidonia oceanica* and Sewage Sludge: Chemical and Spectroscopic Investigation 154
Maria Rosaria Provenzano, Vito Carella, and Anna Daniela Malerba
- Effect of Post-treatment Conditions on the Inactivation Rate of Pathogenic Bacteria after the Composting Process 164
Hamidatu S. Darimani, Ryusei Ito, Seyram K. Sossou, Naoyuki Funamizu, and Maiga H. Amadou
- Isolation and Identification of Bacterial Strains from Decomposing Hazelnut Husk 174
Rıdvan Kızılkaya, Nevzat Sahin, Demet Tatar, Aysel Veyisoglu, Tayfun Askin, Svetlana N. Sushkova, and Tatiana M. Minkina
- Effects of Bio-organic Fertilizers Produced by Four *Bacillus amyloliquefaciens* Strains on Banana Fusarium Wilt Disease 185
Jingjing Wang, Yan Zhao, and Yunze Ruan
- Windrow Composting of Waste Paint Sludge Containing Melamine Resins 199
Yongqiang Tian, Liming Chen, Manli Wu, Lihong Gao, Frederick C. Michel Jr., and Warren A. Dick
- Short-Term Effects of Different Organic Amendments on Soil Properties and Organic Broccoli Growth and Yield 207
M. Hewidy, A. Traversa, M. Ben Kheder, F. Ceglie, and C. Coccozza
