

CONTENTS

AGRICULTURAL ENTOMOLOGY

- Demographic Analyses of Resistance of Five Varieties of Date Palm, *Phoenix dactylifera* L. to *Ommatissus lybicus* De Bergevin (Hemiptera: Tropiduchidae).
M. Mahmoudi, A. Sahragard, H. Pezhman, and M. Ghadamyari 263
- Transformation of Insect and Herbicide Resistance Genes in Cotton (*Gossypium hirsutum* L.).
M. F. Awan, M. A. Abbas, A. Muzaffar, A. Ali, B. Tabassum, A. Q. Rao, I. Ahmad Nasir, and T. Husnain 275

AGRICULTURAL MACHINERY

- Prediction of Paddy Moisture Content during Thin Layer Drying Using Machine Vision and Artificial Neural Networks.
I. Golpour, R. Amiri Chayjan, J. Amiri Parian, and J. Khazaei 287

AGRONOMY

- Effect of Different Fertilizing Treatments on Nutrient Uptake in Annual Medic (*Medicago scutellata* cv. Robinson) under Irrigated and Dry Farming Systems.
Gh. Shabani, M. R. Ardakani, M. R. Chaichi, J. K. Friedel, and K. Khavazi 299
- Polyamine Degradation Pathway Regulating Growth and GABA Accumulation in Germinating Fava Bean under Hypoxia-NaCl Stress.
R. Yang, Y. Yin, and Z. Gu 311
- Response of Durum Wheat to Foliar Application of Varied Sources and Rates of Iron Fertilizers.
H. Ghafari, and J. Razmjoo 321

ANIMAL SCIENCE

- Reevaluation of Male Broiler Zinc Requirement by Dose-Response Trial Using Practical Diet with Added Exogenous Phytase.
M. Zaghari, M. Avazkhanloo, and M. Ganjkhanelou 333
- Usage of Green Fluorescent Protein for Tracing Probiotic Bacteria in Alimentary Tract and Efficacy Evaluation of Different Probiotic Administration Methods in Broilers.
F. Hashemzadeh, S. Rahimi, M. A. Karimi Torshizi, and A. A. Masoudi 345

FOOD SCIENCE

- Amino Acid Composition of Roe from Wild and Farmed Beluga Sturgeon (*Huso huso*).
A. Hamzeh, M. Moslemi, M. Karaminasab, M. A. Khanlar, R. Faizbakhsh, M. Batebi Navai, and R. Tahergorabi 357
- Effects of Grape Seed Powder as a Functional Ingredient on Flour Physicochemical Characteristics and Dough Rheological Properties.
M. Aghamirzaei, S. H. Peighambaridoust, S. Azadmard-Damirchi, and M. Majzoobi 365
- Impact of Baking Bed and Baking Temperature on Staling of Sangak Bread.
L. Izadi Najafabadi, N. Hamdami, A. Le-Bail, J. Y. Monteau, and J. Keramat 375

Continued on back cover

Continued from front cover:

FOOD SCIENCE

- Single Cell Oil (SCO) Production by *Rhodotorula mucilaginosa* and Its Environmental Benefits.
M. Enshaeieh, A. Abdoli, and M. Madani 387

HORTICULTURAL SCIENCE

- Antidiabetic and Antioxidant Properties of Bilberry (*Vaccinium myrtillus* Linn.) Fruit and Their Chemical Composition.
A. Güder, M. Gür, and M. S. Engin 401

- Growth and Flowering of Two Tuberose (*Polianthes tuberosa* L.) Cultivars under Deficit Irrigation by Saline Water.
M. Bahadoran, and H. Salehi 415

- Superior Growth Characteristics, Yield, and Fruit Quality in Promising European Pear (*Pyrus communis* L.) Chance Seedlings in Iran.
R. Najafzadeh, and K. Arzani 427

PLANT BREEDING

- Development of an SNP Marker for Sugar Beet Resistance/Susceptible Genotyping to Root-Knot Nematode.
M. Bakooie, E. Pourjam, S. B. Mahmoudi, N. Safaie, and M. Naderpour 443

- Numerical Classification of Western Balkan Drought Tolerant Maize (*Zea mays* L.) Landraces.
V. Babić, J. Vančetović, S. Prodanović, N. Kravić, M. Babić, and V. Anđelković 455

- Overexpression of Rice Phosphate Transporter Gene *OsPT2* Enhances Tolerance to Low Phosphorus Stress in Soybean.
G. H. Chen, W. Yan, S. p. Yang, A. Wang, J. Y. Gai, and Y. L. Zhu 469

- Using Growth Parameters for *In-vitro* Screening of Potato Varieties Tolerant to Salt Stress.
R. Murshed, S. Najla, F. Albiski, I. Kassem, M. Jbour, and H. Al-Said 483

PLANT PATHOLOGY

- Comparative Effects of Poultry Manure, Cow Dung, and Carbofuran on Yield of *Meloidogyne incognita*-Infested Okra.
L. U. Amulu, and O. K. Adekunle 495

- Trichoderma* and Arbuscular Mycorrhizal Fungi Based Biocontrol of *Fusarium udum* Butler and Their Growth Promotion Effects on Pigeon Pea.
K. Dehariya, A. Shukla, I. A. Sheikh, and D. Vyas 505

SOIL SCIENCE

- Effects of Nitrogen Application on Soil Nitrification and Denitrification Rates and N₂O Emissions in Greenhouse.
Y. K. Li, B. Li, W.Z. Guo, and X. P. Wu 519
