Soil Forming Factors: Their Role in the Formation of Saline Soils on
the Plains of Western and Central Ciscaucasia

T. V. Korolyuk

689

Soil Chemistry

Transformation of Polymetallic Dust in the Organic Horizon
of Al-Fe-humus Podzol (Field Experiment)

I. V. Lyanguzova, D. K. Goldvirt, and I. K. Fadeeva

701

Soil Physics

Physically Based Mathematical Models in Soil Science: History, Current State,
Problems, and Outlook (Analytical Review)

E. V. Shein

712

Kinetic Assessment of Gas Exchange between the Soil and the Atmosphere
by the Static Chamber Method

A. V. Smagin

719

Electrophysical Approach to Assessing Some Cultivation and Fertility Elements
of Light Soils in the Humid Zone

A. I. Pozdnyakov, P. I. Eliseev, and L. A. Pozdnyakov

726

Effect of the Size of Elementary Soil Particles on the Soil Moisture Characteristic Curve

I. I. Sudnitsyn

735

Specific Features of Soil Water Exchange and Chemistry of Pore and Ground Waters

N. A. Muromtsev, P. I. Pylenok, N. A. Semenov, and K. B. Anisimov

742

The Influence of Complex Compost on the Aggregate Composition and Water
and Air Properties of an Ordinary Chernozem

I. S. Belyuchenko and D. A. Antonenko

748

Role of Water Repellency in Aggregate Stability of Cultivated Soils
under Simulated Raindrop Impact

Lucia Kořenková and Peter Matúš

754

Soil Erosion

Effect of Gravity on the Erosion of Model Samples

*G. A. Larionov, O. G. Bushueva, N. G. Dobrovol'skaya,
Z. P. Kiryukhina, S. F. Krasnov, and L. F. Litvin*

759

Degradation, Rehabilitation, and Conservation of Soils

The Influence of Fe(III) on Oil Biodegradation in Excessively Moistened Soils
and Sediments

Yu. N. Vodyanitskii, S. Ya. Trofimov, and S. A. Shoba

764

Application of Activated Sludge to Purify Urban Soils of Baku City
from Oil Contamination

M. P. Babaev, S. I. Nadzhafova, and A. G. Ibragimov
