

Breeding and Genetics

An alternative computing strategy for genomic prediction using a Bayesian mixture model
L. Chen, C. Li, and F. Schenkel 1–11

Immune responses of porcine airway epithelial cells to poly(I:C), a synthetic analogue of viral double-stranded RNA
X-q. Yang, L. Wang, H-t. Li, and D. Liu 13–20

Pedigree analysis of Polish warmblood horses participating in riding performance tests
A. Borowska and T. Szwaczkowski 21–29

Molecular characterization of porcine *PGM1* gene associated with meat quality traits
J. H. Hwang, S. G. Kwon, D. H. Park, T. W. Kim, D. G. Kang, J. Ha, S. Woong Kim, and C. W. Kim 31–36

Meat Science

Effects of production system and slaughter weight endpoint on growth performance, carcass traits, and beef quality from conventionally and naturally produced beef cattle
D. L. Glanc, C. P. Campbell, J. Cranfield, K. C. Swanson, and I. B. Mandell 37–47

Comparison of fatty acids in beef tissues from conventional, organic and natural feeding systems in western Canada
T. D. Turner, J. Jensen, J. L. Pilfold, D. Prema, K. K. Donkor, B. Cinel, D. J. Thompson, M. E. R. Dugan, and J. S. Church 49–58

Modelling Animal Systems

Stochastic economic evaluation of dairy farm reproductive performance
A. S. Kalantari and V. E. Cabrera 59–70

Nonruminant Nutrition

Low crude protein diets modulate intestinal responses in weaned pigs challenged with *Escherichia coli* K88
F. O. Opapeju, J. C. Rodriguez-Lecompte, M. Rademacher, D. O. Krause, and C. M. Nyachoti 71–78

Reduction of carotenoids in corn gluten meal: Effects on growth performance and muscle pigmentation of rainbow trout (*Oncorhynchus mykiss*)
P. J. Saez, E. M. Abdel-Aal, and D. P. Bureau 79–92

Ruminant Nutrition

Effect of direct-fed microbials on utilization of degradable intake protein in receiving steers
N. M. Kenney, E. S. Vanzant, D. L. Harmon, and K. R. McLeod 93–102

Methane production and energy partitioning in sheep fed *Andropogon gayanus* grass ensiled at three regrowth stages
G. O. Ribeiro, A. M. Teixeira, F. O. Velasco, W. G. Faria, D. G. Jayme, R. M. Maurício, L. C. Gonçalves, and T. A. McAllister 103–110

Postpartum injection with vitamin E and selenium failed to improve the performance of Awassi ewes and their lambs
M. S. Awawdeh, A. Q. Talafha, and B. S. Obeidat 111–115

***Saccharomyces cerevisiae* live culture affects rapidly fermentable carbohydrates fermentation profile in precision-fed dairy heifers**
G. J. Lascano, A. J. Heinrichs, and J. M. Tricarico 117–127
