

# Contents

- 007 **Paolo Alghisi (1927-2015) (OBITUARY)**  
*F. Favaron, P. Magro, E. Porceddu and G.P. Martelli*
- 009 **Current status of phytoplasma diseases of forest and landscape trees and shrubs (OFFERED REVIEW)**  
*C. Marcone*
- 037 ***Burkholderia gladioli* associated with soft rot of onion bulbs in Poland**  
*B. Kowalska, U. Smolińska and M. Oskiera*
- 045 **Systemic antiviral resistance induced in papaya by CAP-34, a resistance inducing protein from *Clerodendrum aculeatum*, is associated with a proteinaceous virus inhibitory activity**  
*A. Srivastava, S. Srivastava and V. Prasad*
- 055 **Use of volatile metabolite profiles to distinguish three *Monilinia* species**  
*S.M. Mang, R. Racioppi, I. Camele, G.L. Rana and M. D'Auria*
- 061 **Incidence of sweet cherry viruses in Shandong province, China and a case study on multiple infection with five viruses**  
*X. Zong, W. Wang, H. Wei, J. Wang, X. Yan, R.W. Hammond and Q. Liu*
- 069 **Physiological and biochemical characteristics and multilocus sequence analysis of banana soft rot bacteria in China**  
*Q. Liu, Y. Yuan, J. Liang, C. Wei, Q. Zhang and H. Li*
- 077 ***Colletotrichum siamense* and *C. truncatum* are responsible for severe outbreaks of anthracnose on onion in southwest India**  
*P. Chowdappa, C.S. Chethana and K.V. Pavani*
- 087 **Evaluation of slow rusting components in pea**  
*A.K. Singh, V.K. Singh, R. Chand, C. Kushwaha and C.P. Srivastava*
- 093 **Potential host range of *Anthostoma decipiens* and *Endothiella* sp., agents of hornbeam blight**  
*M. Saracchi, P. Sardi, A. Kunova and P. Cortesi*
- 099 **Mutual relations between jasmonic acid and acibenzolar-S-methyl in the induction of resistance to fire blight in apple trees**  
*W. Warabieda, M. Markiewicz, D. Wójcik and J. Pulawska*
- 109 **Incidence of sweet potato viruses in the Coastal Savannah agro-ecological zone of Ghana**  
*F.L. Sossah, A.S. Appiah, V. Oduro, H.M. Amoatey, G.K. Owusu, A. Oppong, J.M. Lamptey, E.L. Carey and S. Fuentes*
- 119 **Resistance to *Xanthomonas gardneri* in tomato leaves induced by polysaccharides from plant or microbial origin**  
*C. Luiz, A.C. Rocha Neto and R.M. Di Piero*
- 129 **Molecular variability of *Prunus necrotic ringspot virus* isolates from different *Prunus* hosts in Tunisia**  
*N. Mahfoudhi, I. Selmi, A. Lehad, M. Elair, H. Ben Hamda and M.B. Allagui*
- 135 **Genetic diversity of *Ralstonia solanacearum* strains causing bacterial wilt of potato in the Meghalaya state of India**  
*M.S. Gurjar, V. Sagar, T.K. Bag, B.P. Singh, S. Sharma, A. Jeevalatha, R.R. Bakade and K.S. Singh*
- 143 **Detection of *Pectobacterium carotovorum* subsp. *carotovorum* associated with bacterial soft rot of two succulent plants in Iran using *recA* and *pmrA* genes**  
*S. Baghaee-Ravari and N. Gerayeli*
- 149 **Biochar increases soil pH, but is as ineffective as liming at controlling clubroot (SHORT COMMUNICATION)**  
*O.G.G. Knox, C.O. Ogboro, F.J. Burnett and J.M. Fountaine*
- 153 **Identification and characterization of NBS-LRR class resistance gene analogs in mothbean (*Vigna aconitifolia*) (SHORT COMMUNICATION)**  
*S. Shree Pareek, R. Joshi, I. Ravi, E. Rout, S. Kumar and V. Sharma*

- 161 **Detection and molecular characterization of three begomoviruses associated with yellow vein disease of *Eclipta prostrata* in Fujian, China (SHORT COMMUNICATION)**  
J. Zhang, S.P. Jia, C.X. Yang, Z. Liu and Z.J. Wu
- 167 **Characterisation of *Colletotrichum* species causing anthracnose disease of mango in Italy (SHORT COMMUNICATION)**  
A.M. Ismail, G. Cirrilleri, I. Yaseen, F. Epifani, G. Perrone and G. Polizzi
- 173 **Spot blotch on volunteer wheat plants in Sichuan, China (SHORT COMMUNICATION)**  
X.F. Sun, D.X. Zhang, G.S. Gong, X.B. Qi, K.H. Ye, Y. Zhou, N. Liu and X.L. Chang
- 177 ***Digitaria horizontalis* and *D. insularis* as alternative hosts for *Pantoea ananatis* in Brazilian maize fields (SHORT COMMUNICATION)**  
R.M. Gonçalves, W.F. Meirelles, J.E.F. Figueiredo, M.I. Balbi-Peña and L.D. Paccola-Meirelles
- 183 **Identification of the first *Fusarium sibiricum* isolate in Iran and *Fusarium langsethiae* isolate in Siberia by morphology and species-specific primers (SHORT COMMUNICATION)**  
T. Yli-Mattila, O. Gavrilova, T. Hussien and T. Gagkaeva
- 189 ***Grapevine leafroll associated virus 4* strain 9: complete genome and quantitative analysis of virus-derived small interfering RNA populations (SHORT COMMUNICATION)**  
I. Velasco, E. Cretazzo, C.V. Padilla and D. Janssen
- 193 **Analysis of the expression of genes related to oxylipin biosynthesis in *Fusarium verticillioides* and maize kernels during their interaction (SHORT COMMUNICATION)**  
V. Scala, M. Beccaccioli, C. Dall'Asta, P. Giorni and C. Fanelli
- 199 **Virus composition influences virus elimination success and *in vitro* growth characteristics of the grapevine cv. Plavac mali (SHORT COMMUNICATION)**  
K. Hancevic, G. Zdunic, D. Voncina and T. Radic
- 203 **Genetic diversity of *Grapevine leafroll-associated virus 3* in Algeria (SHORT COMMUNICATION)**  
A. Lebad, I. Selmi, M. Louanchi, M. Aitouada and N. Mahboubi
- 209 **Virulence and genetic variability of *Neocosmospora vasinfecta* causing root rot in chickpea (DISEASE NOTE)**  
H. Ali, K. Pervaiz Akhtar, T. Mahmud Shah and N. Iqbal
- 209 **Powdery mildew caused by *Golovinomyces cichoracearum* on *Symphytotrichum subulatum* var. *squamatum* in Iran (DISEASE NOTE)**  
H.A. Mirhosseini, V. Babaeizad, L. Hashemi and E. Basavanli
- 210 **First report of *Catharanthus yellow mosaic virus* infecting *Duranta repens* in Pakistan (DISEASE NOTE)**  
A. Mustafiz, R.W. Briddon and M. Tahir
- 210 **First report of a *Pantoea* sp.-induced bacterial blight of *Pleurotus eryngii* in China (DISEASE NOTE)**  
C. Rong, Y. Yin, Y. Ma, Y. Liu, S. Wang and F. Xu
- 211 **First report of *Trichoconiella padwickii* causing leaf spot disease on parthenium weed (DISEASE NOTE)**  
M. Kaur and N.K. Aggarwal
- 211 **First report of *Papaya ringspot virus W* infecting *Momordica charantia* in Cuba (DISEASE NOTE)**  
D. Cabrera Mederos, F.J. Giolitti and O. Portal
- 212 **First report of *Fusarium oxysporum* causing leaf blight on *Rheum australe* (DISEASE NOTE)**  
H. Thakur, S. Kumar and V. Shanmugam
- 212 **First report of dieback of olive trees caused by *Neofusicoccum australe* in Tunisia (DISEASE NOTE)**  
M.A. Triki, S. Krid HadjTaieb, M. Cheffi, Y. Gharbi and A. Rhouma
- 213 **First report of Panama wilt disease of banana caused by *Fusarium oxysporum* f. sp. *cubense* in Pakistan (DISEASE NOTE)**  
R.N. Syed, A.M. Lodhi, M.M. Jiskani, K.I. Rajput, M.A. Khaskheli, M.A. Khanzada, N.A. Rajput, S.A. Maitlo and A.Q. Rajput
- 213 **Citrus bacterial canker pustules are associated with leafminer galleries in Iran (DISEASE NOTE)**  
M.R. Mirzaee

- 214 **First report of leaf spot of *Campanula glomerata* caused by *Alternaria* sp. in Italy (DISEASE NOTE)**  
*A. Garibaldi, D. Bertetti, G. Ortu and M.L. Gullino*
- 214 **Detection of *Alfalfa mosaic virus* in *laurustinus* in Apulia (DISEASE NOTE)**  
*M. Morelli and G.P. Martelli,*
- 215 **First report of *Rhizopus oryzae* causing fruit rot of *Citrus medica* L. in Pakistan (DISEASE NOTE)**  
*H.S. Naz, S. Gul, H.J. Chaudhary and M.F.H. Munis*
- 215 **First report of *Phoma aliena* causing fruit rots of pomegranates in northern Greece (DISEASE NOTE)**  
*S.C. Palavouzis, S. Tzamos, E. Paplomatas and T. Thomidis*
- 216 **First report of *Cytospora punicae* isolated from pomegranate plants with symptom of collar rot in northern Greece (DISEASE NOTE)**  
*S.C. Palavouzis, S. Tzamos, E. Paplomatas and T. Thomidis*
- 216 **First report of tomato anthracnose caused by *Colletotrichum boninense* in Malaysia (DISEASE NOTE)**  
*T.S. Rashid, K. Sijam, J. Kadir, H.M. Saud, H.K. Awla and E.M. Hata*
- 217 **First record of agave leaf spot caused by *Alternaria alternata* in Iran (DISEASE NOTE)**  
*H.A. Mirhosseini, V. Babaeizad, L. Hashemi, E. Basavand and A. M. Heidari-Nezhad*
- 217 **Powdery mildew caused by *Leveillula saxaouli* on *Iljinia regelii* in the Gurbantunggut desert of Xinjiang (DISEASE NOTE)**  
*J.G. Song, B. Xu, S.H. Zhang and Z.Y. Zhao*
- 218 **First report of *Chilli ringspot virus* infection of *Solanum xanthocarpum* in China (DISEASE NOTE)**  
*J.Y. Hu, J. Liu, D.Z. Deng and W.X. Yan*
- 218 **First report of *Rhodotorula glutinis*-induced red spot disease of *Pleurotus nebrodensis* in China (DISEASE NOTE)**  
*S. Wang, C. Rong, Y. Ma, , Y. Liu, D. Zhang and F. Xu*
- 219 **First report of *Phaeoacremonium alvesii* associated with grapevine petri disease in Iran (DISEASE NOTE)**  
*H. Mohammadi and H. Hashemi*
- 219 **First report of botrytis blight caused by *Botrytis cinerea* on bolivian sage (*Salvia oxyphora* L.) in Italy (DISEASE NOTE)**  
*A. Garibaldi, D. Bertetti, G. Ortu and M.L. Gullino*
- 220 ***Alternaria alternata* causing leaf spot on *Cercis siliquastrum* in Greece (DISEASE NOTE)**  
*G.T. Tziros*
- 220 **New host of *Puccinia coronata* var. *coronata* from Pakistan (DISEASE NOTE)**  
*A. Ishaq, N.S. Afshan and A.N. Khalid*
- 221 **First report of *Cucumber mosaic virus* and *Olive latent ringspot virus* on olive trees in Lebanon (DISEASE NOTE)**  
*E. Choueiri, A. Freiji, R. Abou Kubaa and T. Elbeaino*
- 221 **First report of *Itersonilia perplexans* on *Anethum graveolens* in Italy (DISEASE NOTE)**  
*G. Bubici*
