

Contents

- 129 Long-term variation in blood glucose concentration in nestling Great Tits (*Parus major*)**
Adam Kaliński, Mirosława Bańbura, Michał Gładalski, Marcin Markowski, Joanna Skwarska,
Jarosław Wawrzyniak, Piotr Zieliński, Iwona Cyzewska and Jerzy Bańbura
- 138 Expression of adenosine monophosphate-activated protein kinase subunit related to the rate of intramuscular lipogenesis in fast and slow-growing chicken strains**
Ye Yang, Jiao Song, Rui-Qi Fu, Yan-Fa Sun and Jie Wen
- 145 (R)evolution in the molecular sexing of ratite birds: identification and analysis of new candidate sex-linked markers**
Francisco Morinha, João A. Cabral, Sónia Martins, Eduardo Cruz, Nuno Alvura, Pedro Nunes,
João Direitinho, Paula Magalhães and Estela Bastos
- 160 The importance of natural habitats as Short-toed Eagle (*Circaetus gallicus*) breeding sites**
Ezra Hadad, Gilad Weil and Motti Charter
- 167 Immune condition and blood parasites in three sparrow species with different migratory status in central Mexico**
Pilar Carbó-Ramírez and Iriana Zuria
- 175 Effects of storage on physico-chemical parameters and quality of Greater Rhea (*Rhea americana*) eggs**
Renato Clini Cervi, Cíntia Silvia Minafra e Rezende, Luciana Batalha de Miranda Araújo,
Maria Auxiliadora Andrade, Leonardo Lopes Magno and Marcos Barcellos Café
- 179 Variation in haematocrit of nestling Blue Tits (*Cyanistes caeruleus*) in central Poland**
Marcin Markowski, Mirosława Bańbura, Michał Gładalski, Adam Kaliński, Joanna Skwarska,
Jarosław Wawrzyniak, Piotr Zieliński and Jerzy Bańbura
- 185 The impact of a microbial feed supplement on small intestine integrity and oxidative stress biomarker in broiler chickens**
Khaled Ghareeb, Kerstin König, Wageha A. Awad, Qendrim Zebeli and Josef Böhm
- 190 Avian News**
- 193 Book Review**
Nests, eggs, and incubation: new ideas about avian reproduction
Edited by D. Charles Deeming and S. James Reynolds
- 194 Avian Conference Diary**
