

EDITORIAL

703 **A year of action**

OPINION & COMMENT

704 **Correspondence: Validity of county-level estimates of climate change beliefs**

705 **Correspondence: Improved modelling of soil nitrogen losses**

706 **Commentary: Expertise and policy-making in disaster risk reduction**
Colin Walch

707 **Commentary: Sendai targets at risk**
Susan L. Cutter and Melanie Gall

709 **Commentary: Development incentives for fossil fuel subsidy reform**
Michael Jakob, Claudine Chen, Sabine Fuss, Annika Marxen and Ottmar Edenhofer

712 **Commentary: Usefulness and limitations of global flood risk models**
Philip J. Ward, Brenden Jongman, Peter Salamon, Alanna Simpson, Paul Bates, Tom De Groeve, Sanne Muis, Erin Coughlan de Perez, Roberto Rudari, Mark A. Trigg and Hessel C. Winsemius

FEATURE

716 **News Feature: Fat is an environmentalist issue**
Elisabeth Jeffries

RESEARCH HIGHLIGHTS

718 **Our choice from the recent literature**

NEWS & VIEWS

719 **Politics: Echo chambers and false certainty**
Justin Farrell

720 **Hydrology: Climate change comes to the Sahel**
Alessandra Giannini

722 **Biological oceanography: The CO₂ switch in diatoms**
Jodi N. Young and François M. M. Morel

723 **Arctic permafrost: Microbial lid on subsea methane**
Brett F. Thornton and Patrick Crill

PERSPECTIVE

725 **Attribution of climate extreme events**
Kevin E. Trenberth, John T. Fasullo and Theodore G. Shepherd

731 **From local perception to global perspective**
Flavio Lehner and Thomas F. Stocker

REVIEW ARTICLE

735 **Evaluation of CMIP5 palaeo-simulations to improve climate projections**
S. P. Harrison, P. J. Bartlein, K. Izumi, G. Li, J. Annan, J. Hargreaves, P. Braconnot and M. Kageyama

LETTERS

- 744 **Explaining topic prevalence in answers to open-ended survey questions about climate change**
Endre Tvinnereim and Kjersti Fløttum
- 748 **Impacts of climate change on electric power supply in the Western United States**
Matthew D. Bartos and Mikhail V. Chester
- 753 **Tension between scientific certainty and meaning complicates communication of IPCC reports**
G. J. S. Hollin and W. Pearce
- 757 **Dominant role of greenhouse-gas forcing in the recovery of Sahel rainfall**
Buwen Dong and Rowan Sutton
→N&V p720
- 761 **Diatom acclimation to elevated CO₂ via cAMP signalling and coordinated gene expression**
Gwenn M. M. Hennon, Justin Ashworth, Ryan D. Groussman, Chris Berthiaume, Rhonda L. Morales, Nitin S. Baliga, Mónica V. Orellana and E. V. Armbrust
→N&V p722
- 766 **Effects of climate change and seed dispersal on airborne ragweed pollen loads in Europe**
Lynda Hamaoui-Laguel, Robert Vautard, Li Liu, Fabien Solmon, Nicolas Viovy, Dmitry Khvorostyanov, Franz Essl, Isabelle Chuine, Augustin Colette, Mikhail A. Semenov, Alice Schaffhauser, Jonathan Storkey, Michel Thibaudon and Michelle M. Epstein
- 772 **Global mountain topography and the fate of montane species under climate change**
Paul R. Elsen and Morgan W. Tingley
- 777 **Coral bleaching under unconventional scenarios of climate warming and ocean acidification**
Lester Kwiatkowski, Peter Cox, Paul R. Halloran, Peter J. Mumby and Andy J. Wiltshire

ARTICLES

- 782 **An empirical examination of echo chambers in US climate policy networks**
Lorien Jasny, Joseph Waggle and Dana R. Fisher
→N&V p719
- 786 **Corrigendum**
