

CANADIAN JOURNAL OF SOIL SCIENCE

Volume 95, Number 4

November 2015

Ecology, Biological Processes and Plant Interactions

Nitrogen mineralization in beef- and pig-manure-amended soils measured using anion resin method
D. V. Ige, S. M. Sayem, and O. O. Akinremi 305–319

Land use history determines non-native earthworm impacts on atmospheric methane consumption in forest soils, central New York State
J. B. Yavitt 321–330

Physical Processes and Interfaces

Density-dependent calibration of multisensor capacitance probes in coarse soil
J. D. Zettl, M. Huang, S. L. Barbour, and B. C. Si 331–336

Contamination and Environmental Stewardship

Impacts of climate change on nutrient losses from the Pike River watershed of southern Québec
C. Gombault, C. A. Madramootoo, A. R. Michaud, I. Beaudin, M. F. Sottile, M. Chikhaoui, and F. F. Ngwa 337–358

Management for Agricultural, Forestry and Urban Uses

Effect of soil acidification on nitrification in soil
B. J. Zebarth, T. A. Forge, C. Goyer, and L. D. Brin 359–363
