

CONTENTS

**Special topics/Sujets spéciaux**

- Spread of *Plasmidiophora brassicae* on canola in Canada, 2003–2014: Old pathogen, new home  
*B. D. Gossen, S. E. Strelkov, V. P. Manolii, D. C. Rennie, T. Cao, S. F. Hwang, G. Peng and M. R. McDonald* 403

**Bacteria and phytoplasmas/Bactéries et phytoplasmes**

- Specific identification and detection of *Pantoea stewartii* subsp. *stewartii* using a membrane-based multi-gene oligonucleotide array  
*J. T. Tambong* 414

- The banana weevil, *Cosmopolites sordidus* (Germar), is a potential vector of *Xanthomonas campestris* pv. *musacearum* in bananas  
*E. Were, G. V. Nakato, W. Ocimati, I. Ramathani, S. Olal and F. Beed* 427

**Disease control/Moyens de lutte**

- Effect of fungicide seed treatments on *Fusarium virguliforme* infection of soybean and development of sudden death syndrome  
*J. D. Weems, J. S. Haudenshield, J. P. Bond, G. L. Hartman, K. A. Ames and C. A. Bradley* 435

**Epidemiology/Épidémiologie**

- Aspects of the epidemiology and control of powdery mildew (*Oidium neolycopersici*) on tomato in Ontario, Canada  
*R. F. Cerkauskas and J. Brown* 448

- Potential role of pollen and pollinators in the spread of blossom blight of seed alfalfa caused by *Botrytis cinerea*  
*J. Reich, S. Chatterton and D. Johnson* 465

**Note - Epidemiology/Épidémiologie**

- Races of *Puccinia graminis* on wheat, oat, and barley in Canada in 2009 and 2010  
*T. Fetch, J. Mitchell Fetch, T. Zegeye and A. Xue* 476

**Genomics/Génomique**

- Loop-mediated isothermal amplification assay for sensitive and rapid detection of *Phytophthora capsici*  
*Z. Dong, P. Liu, B. Li, G. Chen, Q. Weng and Q. Chen* 485

**Soilborne pathogens/Agents pathogènes telluriques**

- Morphological and molecular characterization, enzyme production and pathogenesis of *Fusarium temperatum* on corn in Mexico  
*K. F. Robles-Barrios, M. G. Medina-Canales, A. V. Rodriguez-Tovar and N. O. Pérez* 495

**Virology/Virologie**

- Association of three begomoviruses and a betasatellite with leaf curl disease of basil in Oman  
*U. E. Ammara, M. Al-Ansari, A. Al-Shihi, I. Amin, S. Mansoor, A. Y. Al-Maskari and A. M. Al-Sadi* 506

**Disease report/Rapport des maladies**

First report of *Sclerotinia* rot of pigeonpea caused by *Sclerotinia sclerotiorum* (Lib.) de Bary in India

*A. K. Gupta, B. M. Bashyal, R. Choudhary, M. Kumar and I. S. Solanki*

514

The occurrence of southern blight on *Allium hookeri* caused by *Sclerotium rolfsii* in Korea

*J.-H. Kwon, O. Choi, H.-D. Kim, J.-Y. Oh and J. Kim*

519

Tan spot of lima bean caused by *Boeremia exigua* var. *exigua* in New York State, USA

*A. M. Gorny, J. R. Kikkert, A. R. Dunn, H. R. Dillard, C. D. Smart and S. J. Pethybridge*
