### ORIGINAL ARTICLES

---

- 63 Genetic parameters for residual energy intake and energy conversion efficiency in Nordic Red dairy cattle  
*A.-E. Liinamo, P. Mäntysaari, M. H. Lidauer, and E. A. Mäntysaari*
- 73 Resource use by old and modern dairy cattle breeds on semi-natural mountain pastures, Central Norway  
*B. Bele, L. Johansen, and A. Norderhaug*
- 85 Trace elements in bovine milk from different regions in Norway  
*Anna Haug, Eiliv Steinnes, Odd Magne Harstad, Egil Prestløyken, Ingunn Schei, and Brit Salbu*
- 97 Inter-relationships between the metrics of instrumental meat color and microbial growth during aerobic storage of beef at 4°C  
*S. Li, G. Zamaratskaia, S. Roos, K. Båth, J. Meijer, E. Borch, and M. Johansson*
- 107 Tryptophan provision by dietary supplementation of a *Bacillus subtilis* mutant strain in piglets  
*A. Torres-Pitarch, B. Nielsen, N. Canibe, B. B. Jensen, P. Derkx, M. D. Cantor, K. Blaabjerg, H. D. Poulsen, and J. V. Nørgaard*
- 115 The effect of microclimatic parameters and the birth date on the number of Mahogany mink kits born and reared  
*N. Świącicka and H. Bernacka*

### SHORT COMMUNICATION

---

- 122 Sow behavioral responses to transient, chemically induced synovitis lameness  
*R. L. Parsons, S. T. Millman, J. F. Coetzee, L. A. Karriker, C. M. Mohling, M. D. Pairis-Garcia, K. J. Stalder, and A. K. Johnson*
