## Plant Growing

- Breeding of Winter Triticale for Use in Confectionery Production  
*A. I. Grabovets and O. G. Popova* 411
- Dynamics of Physiological Parameters During Overwinter of Triticale Plants  
(*Triticosecale* Wittm. & Camus) in Povolzhje Region  
*T. I. Djatchouk, A. V. Pominov, I. A. Kibkalo, O. V. Khomyakova,  
Yu. V. Ital'yanskaya, and N. F. Safronova* 415
- Control of Continuous Irradiation Injury on Tomato Plants with a Temperature Drop:  
Effectiveness Evaluation  
*T. G. Shibaeva, E. F. Markovskaya, E. N. Ikkonen, and E. G. Sherudilo* 419
- Effect of Long Term Salt Stress on Gas Exchange and Leaf Carbohydrate Contents  
in Two Sugar Beet (*Beta vulgaris* L.) Cultivars  
*Alireza Dadkhah* 423
- Productivity and Parameters of the Adaptive Ability and Stability of Pea Varieties  
*V. A. Sapega* 429
- Effect of the Fertilizing System on the Yield and Quality of Grapes  
*M. I. Mamedov* 434
- Express-Methods for Evaluation of Stress Resistance in Agricultural Crops and Strategy  
of Their Diagnostics for Breeding  
*E. A. Goncharova, G. V. Eremin, and T. A. Gasanova* 437
- Dynamics of Composition and Bioecological Characteristics  
of the Dendrologic Collection of the Nikitsky Botanical Garden  
*Yu. V. Plugatar, V. P. Koba, V. N. Gerasimchuk, and V. V. Papelbu* 441
- 

## Plant Protection

- PCR Analysis of Different Ladybird Species (*Coleoptera*, Coccinellidae)  
with Universal RAPD Primers  
*V. I. Kil, E. N. Besedina, and I. S. Tsigikalo* 446
- 

## Fodder Production

- Agro-Energetic and Economic Efficiency of Technologies for the Creation  
and Use of Semishrub-Grass Pasture Agrophytocenoses in the Caspian Semi-Desert  
*Z. Sh. Shamsutdinov, V. M. Kosolapov, A. A. Zotov, A. K. Natirov,  
Yu. B. Kaminov, N. Z. Shamsutdinov, M. M. Shagaipov, and Ch. A. Pyurvenov* 450
- 

## Agrochemistry. Soil Science

- Long-Term Effects of Alternative and Conventional Fertilization I: Effects  
on Arbuscular Mycorrhizal Fungi Community Composition  
*Tancredo Augusto Feitosa de Souza, Andrea Fernandes Rodrigues,  
and Luciano Façanha Marques* 454
- Agrophysical Conditions and Fertility of Drained Soils  
*Yu. I. Mitrofanov, O. N. Anziferova, and N. K. Pervushina* 462

### Melioration

Water Regime and Fertilizer Doses for Rice Crops with Periodic Watering in the Lower Volga Region

*I. P. Kruzhilin, M. A. Ganiev, V. V. Melikhov, A. G. Bolotin, and K. A. Rodin*

469

Monitoring Data on Ameliorative Status of Agrolandscape

*D. A. Ivanov, N. G. Kovalev, M. V. Rublyuk, and O. V. Karaseva*

473

---

### Sylvicultural Reclamation

Dynamics of the State of Desertified Agricultural Lands in the South of Russia

*A. V. Vdovenko, A. S. Manaenkov, and L. P. Radochinskaya*

476

---

### Animal Husbandry

Properties of Morphogenesis of Functional Groups and Particular Skeletal Muscles in Red Steppe Young Stock under Southern Urals Conditions

*V. I. Levakhin, V. I. Kosilov, S. I. Mironenko, D. A. Andrienko, and E. A. Azhmuldinov*

481

Feeding Strategies for Reducing Ammonia Emissions in the North-West Region of Russia

*L. V. Romanenko, V. I. Volgin, Z. L. Fedorova, and E. A. Korochkina*

485

---

### Veterinary Science

Probiotic Sahabaktisubtil at Dysbacteriosis in Horses

*M. P. Neustroev, N. P. Tarabukina, S. G. Petrova, and A. A. Baishev*

490

---

### Mechanization

Organizational Features of Process Flow of Combined Feed Production with Disinfection of Raw Materials

*S. V. Braginets and O. N. Bakhchevnikov*

494

Evaluation of Tillage Efficiency and Power Requirements for a Deep-Placement Fertilizer Applicator with Reverse Rotational Rotary

*Takanori Fujii, Hideo Hasegawa, Takuji Ohyama, and V. T. Sinegovskaya*

498

---

### Modeling

Universality of the Logistic Function Applied to Modeling Predicted Development of Natural and Anthropogenic Systems

*A. S. Rulev, O. V. Ruleva, and N. N. Ovechko*

504

---

### Storage and Processing of Agricultural Products

Quality of Brewing Malt Depending on the Storage Conditions of Barley

*M. B. Khokonova, A. S. Karashaeva, and A. A. Zavalin*

508
