

CONTENTS

SHORT COMMUNICATION

- 127 Development of enteric methane emission factors for Holstein-Friesian and Norwegian first lactation cows
X. J. Chen and T. Yan

ORIGINAL ARTICLES

- 132 Genetic correlation between leg conformation in young pigs, sow reproduction and longevity in Danish pig populations
T. H. Le, E. Norberg, B. Nielsen, P. Madsen, K. Nilsson, and N. Lundeheim
- 139 Effect of genotype and level of supplementary concentrate on foraging activity and vegetation cover in an organic free-range pig system
A. G. Kongsted and M. Jakobsen
- 148 The effect of different dietary energy levels during rearing and mid-gestation on sow lifetime performance and longevity
S. L. Thingnes, A. H. Gaustad, N. P. Kjos, E. Sandberg, and T. Framstad
- 158 Performance, health and behaviour of organic growing-finishing pigs in two different housing systems with or without access to pasture
J. A. M. Botermans, A.-CH. Olsson, M. Andersson, CH. Bergsten, and J. Svendsen
- 168 Testing a new virtual fencing system on sheep
E. I. Brunberg, K. E. Bøe, and K. M. Sørheim
- 176 Blood and milk status of vitamin E, vitamin A, and selenium in nursing Awassi ewes injected with vitamin E and selenium
M. S. Awawdeh and A. Q. Talafha
