## Special Issue: Crop Sequences in Modern Australian Farming Systems

*Foreword: Crop sequences in modern Australian farming systems*

*Roger Lawes*

i

### REVIEW PAPER

Break crops and rotations for wheat

*J. F. Angus, J. A. Kirkegaard, J. R. Hunt, M. H. Ryan, L. Ohlander, M. B. Peoples*

523

### RESEARCH PAPERS

Long-term cropping system studies support intensive and responsive cropping systems in the low-rainfall Australian Mallee

*A. M. Whitbread, C. W. Davoren, V. V. S. R. Gupta, R. Llewellyn, D. Roget*

553

Break-crop effects on wheat production across soils and seasons in a semi-arid environment

*T. M. McBeath, V. V. S. R. Gupta, R. S. Llewellyn, C. W. Davoren, A. M. Whitbread*

566

Crop-sequence effects on productivity in a wheat-based cropping system at Wongan Hills, Western Australia

*R. J. French, R. S. Malik, M. Seymour*

580

Dynamic crop sequencing in Western Australian cropping systems

*Raj S. Malik, Mark Seymour, Robert J. French, John A. Kirkegaard, Roger A. Lawes, Mark A. Liebig*

594

Considering long-term ecological effects on future land-use options when making tactical break-crop decisions in cropping systems

*Michael Renton, Roger Lawes, Tess Metcalf, Michael Robertson*

610

Gaining insight into the risks, returns and value of perfect knowledge for crop sequences by comparing optimal sequences with those proposed by agronomists

*Roger Lawes, Michael Renton*

622

Crop sequences in Western Australia: what are they and are they sustainable? Findings of a four-year survey

*Martin Harries, Geoffrey C. Anderson, Daniel Hüberli*

634
