## RESEARCH PAPERS

- Yield and water-use efficiency of wheat in a high-rainfall environment  
*Tina Botwright Acuña, Shaun Lisson, Peter Johnson, Geoff Dean* 419
- Responses to phosphorus among wheat genotypes  
*Glenn McDonald, William Bovill, Julian Taylor, Robert Wheeler* 430
- Genetic dissection of the developmental behaviour of total starch content and its components in wheat grain  
*Bin Tian, Zhiying Deng, Quangang Xie, Jichun Tian* 445
- Grain number determination under contrasting radiation and nitrogen conditions in 2-row and 6-row barleys  
*Sebastián Arisnabarreta, Daniel J. Miralles* 456
- Herbicide resistance in *Bromus* and *Hordeum* spp. in the Western Australian grain belt  
*Mechelle J. Owen, Neree J. Martinez, Stephen B. Powles* 466
- Development and validation of protocols for product stewardship in transgenic white clover (*Trifolium repens* L.):  
detection of the *AMV CP* and *npt2* transgenes in pollen, honey and honey bees  
*S. Panter, A. Mouradov, K. F. Smith, G. Spangenberg* 474
- Identification of fast and slow germination accessions of *Brassica napus* L. for genetic studies and breeding for early vigour  
*Jing Zhang, Liyong Hu, Bob Redden, Guijun Yan* 481
- Improving grain yields on a sodic clay soil in a temperate, medium-rainfall cropping environment  
*R. D. Armstrong, C. Eagle, R. Flood* 492
- Resistance reaction of *Medicago truncatula* genotypes to *Fusarium oxysporum*: effect of plant age,  
substrate and inoculation method  
*Nicolas Rispaïl, Moustafa Bani, Diego Rubiales* 506
- Reproduction strategy of *Chloris virgata* under simulated atmospheric nitrogen deposition  
*Wang Changfu, Wang Ying* 516
