

## Contents

### Topic Issue: Vascular and skin lesions

Issue Editor: Xiuli Wang

#### Editorial

Xiuli Wang

**Light and lasers for vascular and skin diseases: From bench to clinic – An update — 171**

#### Magazine section

Snapshots — 177

#### Original contributions

Ming-Lei Wei, Hai-Yan Zhang, Pei-Ru Wang, Bo Wang, Lei Shi, Guo-Long Zhang and Xiu-Li Wang

**A study on the effects of 532 nm continuous laser combined with photodynamic therapy versus 595 nm pulsed dye laser on a chicken comb model of vascular malformation — 183**

Yun Feng, Xiaoming Hu, Ya Zhou and Yong Wang

**Calibration of a three-dimensional photodynamic therapy illumination system and its segmentation assessment for port-wine stains — 195**

Teresita Spezzia-Mazzocco, Susana A. Torres-Hurtado, Julio Cesar Ramírez-San-Juan and Rubén Ramos-García

***In-vitro* effect of antimicrobial photodynamic therapy with methylene blue in two different genera of dermatophyte fungi — 203**

Lívia Assis, Ana Iochabel Soares Moretti, Sabrina Messa Peviani, João Luiz Quagliotti Durigan, Thiago Luiz Russo, Natália Rodrigues, Jéssica Bastos, Vivian Cury, Heraldo Possolo de Souza and Nivaldo Antonio Parizotto

**Low-level laser therapy enhances muscle regeneration through modulation of inflammatory markers — 211**

#### Case reports

Bianca Bigge and Stefan Bigge

**Treatment of recalcitrant viral warts using a 577-nm wavelength high-power optically pumped semiconductor laser — 219**

Margherita Gobbo, Giulia Ottaviani, Katia Rupel, Matteo Biasotto and Alessandra Guglielmi

**Can laser therapy be the answer for radiodermatitis in anal cancer patients? Two case reports — 225**

Alexander V. Bashenow, Igor Y. Motus, Sergey N.

Skornyakow, Anton V. Neretin, Natalya V. Rayewskaya, Ilia A. Dyachkow, Roman B. Berdnikow and Lyudmila A. Golubewa

**Use of a 1318 nm Nd:YAG laser for the resection of limited forms of pulmonary tuberculosis — 231**

#### Congress announcements

Congresses 2016/2017 — 241
