- 8** MAGNETOM Sempra.*
Daily success with 1.5T

Business

- 12** Long-term Experience with MR Upgrades
Christos Loupatatzis, MRI AG Spital Maennedorf, Switzerland
- 18** The fit Experience in Canada
Nancy Talbot, Princess Margaret Cancer Center, Toronto, Canada

Musculoskeletal MRI

- 22** Review: MRI of Muscle Denervation Syndromes
Gustav Andreisek, et al., University of Zurich, Switzerland
- 26** Utility of MRI Findings in Inflammatory Myopathies
Christopher J. Hanrahan, et al., University of Utah School of Medicine, Salt Lake City, UT, USA
- 30** High Resolution Isotropic 3D CAIPIRINHA SPACE¹ MRI of the Musculoskeletal System
Jan Fritz, et al., Johns Hopkins University School of Medicine, Baltimore, MD, USA

Abdominal Imaging

- 39** How-I-do-it: MR LiverLab
Robert Sellers, Siemens Healthineers, Cary, NC, USA
- 44** Iron quantification with LiverLab
Stephan Kannengiesser, Siemens Healthineers, Erlangen, Germany
- 48** Motion Correction of ⁹⁰Y Dose Maps with MR/PET Imaging
Zahi A. Fayad, et al., Mount Sinai, New York, NY, USA

Cardio-pulmonary Imaging

- 52** Motion Correction in PET/MR Using the Biograph mMR
Thomas Vahle, et al., New York University, Langone Medical Center, New York, NY, USA
- 60** Cardio-Pulmonary MRI for Diagnosis and Monitoring of Chronic Thromboembolic Pulmonary Hypertension (CTEPH)
Jens Vogel-Claussen, et al., Hannover Medical School, Hannover, Germany

Cardiovascular Imaging

- 65** Free-breathing Late Enhancement Imaging: Phase Sensitive Inversion Recovery (PSIR) with Respiratory Motion Corrected (MOCO)¹ Averaging
Peter Kellman, et al., National Heart, Lung, and Blood Institute, National Institutes of Health, Bethesda, MD, USA
- 74** 4D Flow MRI¹ – an Update
Michael Markl, et al., Feinberg School of Medicine, Northwestern University, Chicago, IL, USA
- 80** How-I-do-it: Imaging of Vascular Calcification Using PETRA and StarVIBE
Marcos P. Botelho, et al., Northwestern Memorial Hospital, Chicago, IL, USA

*510(k) pending. MAGNETOM Sempra is not commercially available. Future availability cannot be guaranteed.

¹ WIP, the product is currently under development and is not for sale in the US and in other countries. Its future availability cannot be ensured.

² MR scanning has not been established as safe for imaging fetuses and infants less than two years of age. The responsible physician must evaluate the benefits of the MR examination compared to those of other imaging procedures.

³ MAGNETOM 7T is ongoing research. All data shown are acquired using a non-commercial system under institutional review board permission. MAGNETOM 7T is still under development and not commercially available yet. Its future availability cannot be ensured.

Pediatric Imaging

- 82** Case Report: Hypertrophic Cardiomyopathy in a Pediatric Patient;² Usefulness of T1 Mapping Synthetic Inversion Recovery Imaging
Giuseppe Muscogiuri, et al., Bambino Gesù – Children's Hospital IRCCS, Rome, Italy
- 84** Case Series:² Utilization of the Pediatric 16 Coil for 1.5T and 3T Systems
Bac Nguyen, Oslo University Hospital, Rikshospitalet, Oslo, Norway

Head and Neck Imaging

- 92** FREEZEit StarVIBE: Freezing the Moving Head and Neck at a Sub-Millimetric Scale
Marco Ravanelli, et al., Università degli Studi di Brescia, Italy

Neurology

- 95** New Protocol for the MR Imaging of Pituitary Adenomas
Denis Gardeur, Centre RMX, Paris, France

- 100** Case Study: Magnetic Resonance Fingerprinting (MRF)¹ Imaging of the Brain
Siegfried Trattnig, et al., Medical University Vienna, Austria
- 100** Clinical Neuroimaging at 7T³ Compared to Lower Field: a Photo Essay
Stephen E. Jones, et al., Cleveland Clinic, Cleveland, OH, USA

- 112** Rapid Estimation of Myelin for Diagnostic Imaging (REMyDI)¹
Tobias Granberg, et al., Karolinska Institutet, Stockholm, Sweden

Oncological Imaging

- 116** First Clinical Experiences with Simultaneous Multi-Slice Accelerated DWI Throughout the Body
Valentin Tissot, et al., Morvan Hospital, Brest, France

Women's and Men's Health

- 122** Pelvic Congestion Syndrome: The Role of MRI
Rahel A. Kubik-Huch, et al., Kantonsspital Baden, Switzerland

- 126** Simultaneous Multi-Slice RESOLVE¹ for Optimized DWI of the Breast at 3 Tesla
Lukas Filli, et al., University Hospital Zurich, Switzerland

- 130** Transurethral MR-Thermometry Guided Ultrasound Ablation¹ of the Prostate
David Bonekamp, et al., German Cancer Research Center (DKFZ), Heidelberg, Germany

The information presented in MAGNETOM Flash is for illustration only and is not intended to be relied upon by the reader for instruction as to the practice of medicine. Any healthcare practitioner reading this information is reminded that they must use their own learning, training and expertise in dealing with their individual patients. This material does not substitute for that duty and is not intended by Siemens Healthcare to be used for any purpose in that regard. The treating physician bears the sole responsibility for the diagnosis and treatment of patients, including drugs and doses prescribed in connection with such use. The Operating Instructions must always be strictly followed when operating the MR System. The source for the technical data is the corresponding data sheets.
