**Learn from the experience of other MAGNETOM users**

The MAGNETOM World is the community of Siemens MR users worldwide, providing you with relevant clinical information. Here you will find application tips and protocols to optimize your daily work. Lectures and presentations from experts in the field will allow you to be exposed to new ideas and alternative clinical approaches.

Put the advantages of the MAGNETOM World to work for you!

Compressed Sensing GRASP<sup>2</sup>

54

MRI of Parotid Tumors with GRASP<sup>2</sup>

- 36 Compressed Sensing: Application to Time-of-Flight MR Angiography<sup>2</sup>  
*Tomohisa Okada, et al.,  
Kyoto University, Japan*
- 40 Improving Dynamic MR Angiography: Iterative TWIST<sup>2</sup>  
*Bernd J. Wintersperger, et al.,  
University of Toronto,  
Toronto, Ontario, Canada*

- 44 GRASP<sup>2</sup>: Tackling the Challenges of Abdominopelvic DCE-MRI  
*Kai Tobias Block, et al.,  
NYU Langone Medical Center,  
New York, NY, USA*  
Reprinted from  
MAGNETOM Flash (60) 5/2014
- 51 Case Report: Detection of Insulinomas with High Spatio-temporal Resolution Using Compressed Sensing, Parallel Imaging, and Continuous Golden-Angle Radial Sampling<sup>2</sup>  
*Kwadwo Antwi, et al.,  
University Hospital Basel,  
Basel, Switzerland*

- 54 Permeability Imaging of Parotid Tumors with Golden-Angle Radial Sparse Parallel MR Imaging (GRASP)<sup>2</sup>  
*Sohil H. Patel, et al.,  
NYU Langone Medical Center,  
New York, NY, USA*  
Reprinted from  
MAGNETOM Flash (65) 2/2016
- 56 Free-breathing DCE-MRI of the Kidney using GRASP<sup>2</sup>  
*Philipp Riffel, et al.,  
University Medical Center Mannheim,  
University of Heidelberg,  
Mannheim, Germany*

<sup>1</sup> 510(k) pending. Compressed Sensing Cardiac Cine is not commercially available. Future availability cannot be guaranteed.

<sup>2</sup> WIP, the product is currently under development and is not for sale in the US and in other countries. Its future availability cannot be ensured.

The information presented in MAGNETOM Flash is for illustration only and is not intended to be relied upon by the reader for instruction as to the practice of medicine. Any health care practitioner reading this information is reminded that they must use their own learning, training and expertise in dealing with their individual patients. This material does not substitute for that duty and is not intended by Siemens Healthcare to be used for any purpose in that regard. The treating physician bears the sole responsibility for the diagnosis and treatment of patients, including drugs and doses prescribed in connection with such use. The Operating Instructions must always be strictly followed when operating the MR System. The source for the technical data is the corresponding data sheets.
