

Content

Elements Required to Build a Strong ACHD Program Gary Webb	6
Echocardiographic evaluation of the tricuspid valve, the pulmonic valve and the right ventricle Jan Marek	10
Advanced echocardiographic modalities in the assessment of right ventricular function Satoshi Yasukochi	14
Assessment of RV function with pressure-volume loops – impact on treatment indication for a volume-loaded RV Christian Apitz	16
Cardiovascular Magnetic Resonance Evaluation of the tricuspid valve, the pulmonary valve and the right ventricle Christian Meierhofer	18
Exercise physiology and pathology in right ventricular dysfunction Folkert Meijboom	20
Indications for treatment in adults with tricuspid valve dysfunction due to a congenital cardiac anomaly Markus Schwerzmann	24
Surgical techniques to improve tricuspid valve function in congenital heart defects Victor Tsang, Henri Haapanen	26
When Tricuspid Valvuloplasty fails ... What is the best valve in tricuspid position? Alessandro Giamberti	28
Which valve is best in right ventricular outflow tract dysfunction? Rüdiger Lange	30
Indications for pulmonary valve replacement in adults with congenital heart disease Werner Budts	32
Failing biological tricuspid valve – percutaneous tricuspid valve replacement Peter Ewert	36
Transcatheter Percutaneous Pulmonary Valve-in-Valve Implantation Chessa Massimo	38
When treatment fails – indication for and results of transplantation for failing hearts in Congenital Heart Disease (CHD) Harald Gabriel	40
The John Hess Lecture – How to optimize ACHD patient care and future directions in physician education Gary Webb	42

Prognostic Value of Brain Natriuretic Peptides in ACHD Olga Hajnalka Balint	43
Heart failure in ACHD: What is different from acquired heart disease? Pedro Trigo Trindade	47
Hyponatremia in ACHD: From prognosis to treatment Oktay Tutarel	50
Can we prevent the development of heart failure in ACHD? Helmut Baumgartner	52
Endstage heart failure in ACHD: Medical and surgical treatment concepts Felix Berger	54
Aortic root dilatation in adults with congenital heart disease and effects of pharmacotherapy on aortic growth Julie De Backer	56
Oral Anticoagulants in Adult Congenital Heart Disease Harald Kaemmerer, Claudia Pujol, Anne-Charlotte Niesert, David Pittrow, Peter Ewert	62
Morbus Fabry: Too often overlooked? Tomas Palecek, Ales Linhart	64
Hypertrophic Cardiomyopathy: the renewed ESC-guidelines Hubert Seggewiss	67
Modern survival analysis in Eisenmenger-Syndrome Gerhard-Paul Diller	68
Pulmonary vasoactive medication in adults with Fontan circulation Jamil Aboulhosn	70
Diagnosis and management of iron deficiency and hyperuricemia in cyanotic ACHD Koichiro Niwa	73
Treat and repair strategies for adults with septal defects and pulmonary arterial hypertension Dietmar Schranz	74
The future of PAH treatment on the horizon Stephan Rosenkranz	76
Electrophysiologic considerations in ACHD with heart failure Karl-Heinz Kuck	80
Efficacy of Antiarrhythmic Pharmacotherapy in ACHD Joachim Hebe	82
Sudden death in ACHD: Risk stratification Johan Holm	88
Device Therapy: Indications and Future Aspects in Primary Prevention of Cardiac Death Christof Kolb	90
Imprint	92
